contained in sections 1, 4(i), 4(j), 4(o), 201(b), 214(d), 218, 251(e)(3), 301, 303(b), 303(g), 303(r), 307, 309(a), 316, 332, 403, 615a-1, and 615c of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i)-(j) & (o), 201(b), 214(d), 218, 251(e)(3), 301, 303(b), 303(g), 303(r), 307, 309(a), 316, 332, 403, 615a-1, and 615c.

Total Annual Cost: \$0.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission does not consider the fact of filing a certification to be confidential or the responses provided on the face of the certification. The Commission will treat as presumptively confidential and exempt from routine public disclosure under the federal Freedom of Information Act: (1) Descriptions and documentation of alternative measures to mitigate the risks of nonconformance with certification standards; (2) information detailing specific corrective actions taken; and (3) supplemental information requested by the Commission or Bureau with respect to a certification.

Needs and Uses: This information collection is necessary to ensure that all Americans have access to reliable and resilient 911 communications, particularly in times of emergency, by requiring certain 911 service providers to certify implementation of key best practices or reasonable alternative measures. The information will be collected in the form of an electronically-filed, annual certification from each Covered 911 Service Provider, as defined in the Commission’s Report and Order, FCC 13–158, in which the provider will indicate whether it has implemented certain industry-backed best practices. Providers that are able to respond in the affirmative to all elements of the certification will be deemed to satisfy the “reasonable measures” requirement in Section 12.4(b) of the Commission’s rules. If a provider does not certify in the affirmative with respect to one or more elements of the certification, it must provide a brief explanation of what alternative measures it has taken, in light of the provider’s particular facts and circumstances, to ensure reliable 911 service with respect to that element(s). Similarly, a service provider may also respond by demonstrating that a particular certification element is not applicable to its networks and must include a brief explanation of why the element(s) does not apply.

The information will be collected by the Public Safety and Homeland Security Bureau, FCC, for review and analysis, to verify that Covered 911

Service Providers are taking reasonable measures to maintain reliable 911 service. In certain cases, based on the information included in the certifications and subsequent coordination with the provider, the Commission may require remedial action to correct vulnerabilities in a service provider’s 911 network if it determines that (a) the service provider has not, in fact, adhered to the best practices incorporated in the FCC’s rules, or (b) in the case of providers employing alternative measures, that those measures were not reasonably sufficient to mitigate the associated risks of failure in these key areas. The Commission delegated authority to the Bureau to review certification information and follow up with service providers as appropriate to address deficiencies revealed by the certification process.

The purpose of the collection of this information is to verify that Covered 911 Service Providers are taking reasonable measures such that their networks comply with accepted best practices, and that, in the event they are not able to certify adherence to specific best practices, that they are taking reasonable alternative measures. The Commission adopted these rules in light of widespread 911 outages during the June 2012 derecho storm in the Midwest and Mid-Atlantic states, which revealed that multiple service providers did not take adequate precautions to maintain reliable service.

SUPPLEMENTARY INFORMATION:

A. Purpose

MyUSA (<https://my.usa.gov>) provides an account to users that gives them control over their interactions with government agencies and how government uses and accesses their personal information. Users have the option of creating a personal profile that can be reused across government to personalize interactions and streamline common tasks such as filling out forms. Government agencies can build applications that can request permission from the user to access their MyUSA Account and read their personal profile.

The information in the system is contributed voluntarily by the user and cannot be accessed by the government without explicit consent of the user; information is not shared between government agencies, except when the user gives explicit consent to share his or her information, and as detailed in the MyUSA System of Records Notice (SORN) (<http://www.gpo.gov/fdsys/pkg/FR-2013-07-05/pdf/2013-16124.pdf>).

The information collected is basic profile information, and may include: name, email address, home address, phone number, date of birth, gender, marital status and basic demographic information such as whether the individual is married, a veteran, a small business owner, a parent or a student.

Use of the system, and contribution of personal information, is completely voluntary. A notice was published November 29, 2013. No comments were received.
