

future lease sales or discouraging exploration, development, or production under other leases or by interfering with potential future renewable energy activities).

Thus, the issues related to DIP of pipeline valves and fittings and other pipeline-related infrastructure in deepwater are potentially complex, especially in light of the size and scope of some projects. Accordingly, BSEE invites the public to submit relevant information and comments on such issues in order to help BSEE establish a consistent and reasonable approach to consideration of requests to allow DIP of pipeline valves and fittings and other pipeline-related infrastructure in deepwater.

II. Request for Information

BSEE would appreciate your views, and any relevant technical information you can provide, on whether and under what circumstances it would be appropriate for BSEE to approve DIP of pipeline valves and fittings (pursuant to § 250.1751(g)) and of other pipeline-related infrastructure (pursuant to § 250.142) in deepwater. Among other issues, BSEE would appreciate comments and information related to whether DIP of pipeline valves and fittings or other pipeline-related infrastructure in deepwater: (1) Could increase (or decrease) safety or environmental risks as compared to decommissioning by removal; or (2) could interfere with navigation, create an obstruction, or otherwise unduly interfere with present or future uses of the OCS.

Please be as specific as possible in expressing your views and in the other information you provide. For example, please consider how your views or information could vary depending on specific circumstances, such as the water depth at which decommissioning takes place. Wherever possible, please provide relevant factual support for your views.

Scott A. Angelle,

Director, Bureau of Safety and Environmental Enforcement.

BILLING CODE P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–1081]

Certain LED Devices, LED Power Supplies, and Components Thereof Notice of Request for Submissions on the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the presiding administrative law judge (“ALJ”) has issued a recommended determination on remedy and bonding should a violation be found in the above-captioned investigation. The Commission is soliciting submissions on public interest issues raised by the recommended limited exclusion order against certain LED devices, LED power supplies, and components thereof, manufactured and imported by respondents Feit Electric Company, Inc. of Pico Rivera, California; Feit Electric Company, Inc. (China) of Xiamen, China; L G Sourcing, Inc. of North Wilkesboro, North Carolina; and Satco Products, Inc. of Brentwood, New York. This notice is soliciting comments from the public only. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

FOR FURTHER INFORMATION CONTACT: Robert Needham, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 708–5468. The public version of the complaint can be accessed on the

Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>, and will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that if the Commission finds a violation it shall exclude the articles concerned from the United States:

unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry.

19 U.S.C. 1337(d)(1).

The Commission is interested in further development of the record on the public interest in these investigations. Accordingly, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the administrative law judge’s recommended determination on remedy and bonding issued in this investigation on December 19, 2018. Comments should address whether issuance of the recommended limited exclusion order in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) Explain how the articles potentially subject to the recommended limited exclusion order are used in the United States;

(ii) Identify any public health, safety, or welfare concerns in the United States relating to the recommended limited exclusion order;

(iii) Identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the
