

Postponement of Due Date for the Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary determination in a countervailing duty investigation within 65 days after the date on which the Department initiated the investigation. However, the Department may postpone making the preliminary determination until no later than 130 days after the date on which the administering authority initiated the investigation if, among other reasons, petitioner makes a timely request for an extension pursuant to section 703(c)(1)(A) of the Act. In the instant investigation, petitioner made such a request on May 22, 2009, requesting a postponement until 130 days from the initiation date. Therefore, pursuant to the discretion afforded the Department under 703(c)(1)(A), we are fully extending the due date for the preliminary determination. The deadline for the completion of the preliminary determination is now August 28, 2009.

This notice is issued and published pursuant to section 703(c)(2) of the Act.

Dated: May 28, 2009.

Ronald K. Lorentzen,
Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

Background

On December 31, 2008, U.S. Steel Corporation (petitioner) requested that the Department conduct an administrative review of Essar, Ispat, JSW, and Tata Steel Limited (Tata). On February 2, 2009, the Department initiated the review. *See Initiation*. On May 4, 2009, petitioner withdrew its request with respect to Essar, Ispat, and JSW.

Scope of the Order

The merchandise subject to this order is certain hot-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, or a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF) steels, high-strength low-alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: i) iron predominates, by weight, over each of the other contained elements; ii) the carbon content is two percent or less, by weight; and iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order.

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTS.
- Tool steels, as defined in the HTS.
- Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.

The merchandise subject to this order is currently classifiable in the HTS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60,

Partial Rescission of Review

Under 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review.

The *Initiation* was published on February 2, 2009. Petitioner submitted a timely request for withdrawal on May 4, 2009. No other party requested administrative reviews of Essar, Ispat, and JSW. Therefore, we are rescinding, in part, this review of the countervailing duty order of certain hot-rolled carbon steel flat products from India with regard to Essar, Ispat, and JSW. This review will continue with respect to Tata.

The Department will issue appropriate assessment instructions directly to U.S. Customs and Border Patrol (CBP) 15 days after publication of this notice. The Department will direct CBP to assess countervailing duties at the cash deposit rate in effect on the date of entry for entries during the period January 1, 2008, through December 31, 2008.
