SUPPLEMENTARY INFORMATION:

Title: Interstate Movement of Swine Within a Production System.

OMB Number: 0579–0161.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301–8317), the Secretary of Agriculture is authorized to regulate the interstate and foreign commerce of animals and other articles; and to cooperate with foreign countries, States or other jurisdictions, or persons to prevent the introduction into or dissemination within the United States of any pest or disease of livestock and to prevent or eliminate burdens on foreign and interstate commerce.

Within the U.S. Department of Agriculture, the Animal and Plant Health Inspection Service (APHIS) has been delegated authority to carry out these activities.

APHIS regulations in title 9 of the Code of Federal Regulations, chapter I, subchapter C, govern the interstate movement of animals and other articles to prevent the spread of pests and diseases of livestock within the United States.

The regulations in part 71 of subchapter C contain requirements for moving swine interstate within a swine production system. A production system consists of separate farms that each specialize in a different phase of

swine production—sow herds, nursery herds, and finishing herds. These separate farms, all members of the same production system, may be located in more than one State. Our regulations facilitate the interstate movement of swine within a single production system while continuing to provide protection against the interstate spread of swine diseases. Moving swine interstate within a swine production system involves the use of two information collection activities in the form of a swine production health plan and an interstate swine movement report.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.081967 hours per response.

Respondents: Swine producers operating within swine production systems.

Estimated annual number of respondents: 1,200.

Estimated annual number of responses per respondent: 10.1.

Estimated annual number of responses: 12,200.

Estimated total annual burden on respondents: 1,000 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual

number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 9th day of October 2003.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Guidelines for Eligibility and Required Documentation for the Golden Access Passport.

OMB Number: 0596-New.

Expiration Date of Approval: N/A.

Type of Request: New.

Abstract: The Golden Access Passport was created in 1980 by an amendment to the Land and Water Conservation Fund Act (LWCFA) of 1965. A Golden Access Passport is a free, lifetime permit that is issued without charge by the National Park Service, Bureau of Land Management, Bureau of Reclamation, and Fish and Wildlife Service, Department of the Interior; the Forest Service, Department of Agriculture; and the U.S. Army Corps of Engineers, Department of Defense to citizens or persons who are domiciled (permanent residents) in the United States, regardless of age, and who have a medical determination and documentation of blindness or permanent disability. Golden Access Passports may be obtained in person and upon proof of blindness or medically determined permanent disability in accordance with the criteria established in the LWCFA of 1965, as amended.

The Passport is not transferable and must be signed by the holder. This Passport entitles the holder and any persons accompanying the holder, such as a care assistant or the holder's spouse and children, in a single private, noncommercial vehicle, to general admission to a Federal area where an entrance fee is charged. This Passport also entitles the holder only to a 50 percent discount on use fees that are charged per vehicle, per person, or per single-family unit at outdoor recreation sites managed by the Forest Service or concessionaires.

In order to clarify and simplify the process for persons with disabilities to obtain the Golden Access Passport, all of the agencies that issue this free, lifetime Passport cooperated in the development of the Guidelines for Eligibility and Required Documentation for the Golden Access Passport. These Guidelines will be used by each agency

when assisting customers seeking to obtain the Passport.

Estimate of Burden: 5 minutes.

Type of Respondents: Individuals with permanent disabilities, who are applying for the free, lifetime Golden Access Passport.

Estimated Number of Respondents: 59,810.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 11,962 hours.

Comment Is Invited

Comment is invited on: (1) Whether the proposed collection of information is necessary for the stated purpose and the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Use of Comments

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Dated: October 7, 2003.
