The preschool year followup represents the third round of data collection for members of this cohort. Children are assessed using state of the art assessment tools, parents are interviewed as well as child care providers and school personnel. Together with the Kindergarten component of this early childhood studies program, the survey informs the research and general community about children's health, early learning, development and education experiences. The focus of this survey is on characteristics of children and their families that influence children's first experiences with the demands of formal schools as well as early health care and in- and out-of-home experiences.
