BILLING CODE 4410-AT-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Clean Air Act

Pursuant to 28 CFR 50.7, notice is hereby given that on January 25, 2010, a proposed Consent Decree in *United States of America, et al. v. Westar Energy, Inc.*, Civil Action No. 2:09-CV-2059-JAR-DJW, was lodged with the United States District Court for the District of Kansas.

The Consent Decree would resolve claims asserted by the United States against Westar Energy ("Westar") pursuant to Sections 113(b) and 167 of the Clean Air Act (the "Act"), 42 U.S.C. 7413(b) and 7477, seeking injunctive relief and the assessment of civil penalties for Westar's violations of:

(a) The Prevention of Significant Deterioration ("PSD") provisions in Part C of Subchapter I of the Act, 42 U.S.C. 7470-92;

(b) The New Source Performance Standards ("NSPS") provisions of the Act, 42 U.S.C. 7411;

(c) Title V of the Act, 42 U.S.C. 7661 *et seq.*; and

(d) The federally-enforceable State Implementation Plan ("SIP") developed by the State of Kansas.

Westar operates three coal-fired power plants in Kansas. One of those plants, the Jeffrey Energy Center ("Jeffrey Plant"), has three electric generating units and is located near St. Marys in Pottawatomie County, Kansas. Only the Jeffrey Plant is the subject of this settlement. The complaint filed by the United States alleges that Westar modified and thereafter operated all three units at the Jeffrey Plant without complying with the PSD requirements of the Act (including the requirements to first obtain a PSD permit authorizing the modifications and to install and operate the best available control technology to control emissions of sulfur dioxide ("SO₂"), nitrogen oxides ("NO_x"), and/or particulate matter ("PM")). The complaint also alleges that Westar violated Title V of the Act by failing to include the PSD requirements triggered by its modifications in its Title V operating permit for the Jeffrey Plant.

The proposed Consent Decree would require Westar to reduce SO₂, NO_x and

PM emissions at all three Jeffrey Units through the installation, upgrade, and/or operation of pollution control technologies. In addition, the proposed complaint would require Westar to spend \$6 million on environmental mitigation projects, namely retrofitting diesel engines to reduce emissions from vehicles owned by or operated for public entities in Kansas with emission control equipment, installing new wind turbines that provide electricity for the benefit of schools or non-profits, installing advanced truck stop electrification, installing plug-in hybrid infrastructure, and converting vehicles in Westar's fleet by retrofitting diesel vehicles and purchasing hybrid vehicles. Finally, the proposed Consent Decree would require Westar to pay a \$3 million civil penalty. The State of Kansas has joined the settlement as co-plaintiff.

The Department of Justice will receive comments relating to the Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States of America, et al. v. Westar Energy, Inc.*, D.J. Ref. 90-5-2-1-08242.

The Consent Decree may be examined at the Office of the United States Attorney for the District of Kansas, 500 State Avenue, Suite 360, Kansas City, KS 66101, and at U.S. EPA Region 7, 901 N. 5th Street, Kansas City, KS 66101. During the public comment period, the Consent Decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/ConsentDecrees.html>. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$16.00 (25 cents per page reproduction cost) payable to the U.S. Treasury or, if by e-mail or fax, forward a check in that amount to the Consent Decree Library at the stated address.

Maureen Katz,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-02-P

DEPARTMENT OF LABOR**Mine Safety and Health Administration**

Proposed Information Collection Request Submitted for Public Comment and Recommendations

Applications for a permit to fire more than 20 boreholes and for the use of non-permissible blasting units or for the posting of notices of misfired holes (pertaining to underground coal mines) and the use of nonpermissible explosives and shot-firing units in shaft and slope construction (pertains to coal mining industry).

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the applications for a permit to fire more than 20 boreholes and for the use of non-permissible blasting units or for the posting of notices of misfired holes and the use of nonpermissible explosives and shot-firing units in shaft and slope construction pertaining to the coal mining industry.

DATES: Submit comments on or before March 30, 2010.

ADDRESSES: Send comments to U.S. Department of Labor, Mine Safety and Health Administration, John Rowlett, Management Services Division, 1100 Wilson Boulevard, Room 2134, Arlington, VA 22209-3939. Commenters are encouraged to send their comments via e-mail to Rowlett.John@dol.gov. Mr. Rowlett can be reached at (202) 693-
