AGENCY: Office of the Secretary, Interior.

ACTION: Notice of a new system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended, the Department of the Interior (DOI) is issuing a public notice of its intent to create a DOI Privacy Act system of records titled, “INTERIOR/DOI–21, eRulemaking Program.” This system of records helps DOI manage an eRulemaking Program and the associated rulemaking documents, public comments, and supporting materials submitted on its rulemakings and **Federal Register** notices. This newly established system will be included in DOI’s inventory of record systems.

SUPPLEMENTARY INFORMATION:

I. Background

The DOI Office of the Executive Secretariat and Regulatory Affairs manages regulatory policy for the Department and is establishing the INTERIOR/DOI–21, eRulemaking Program, system of records to process, analyze and manage documents, comments and supporting materials submitted by members of the public in response to proposed rulemakings and notices. The system is comprised of public comments and documents received from the public that contain personally identifiable information that may include names, mailing addresses, email addresses, or other information received as part of the public comment and regulatory review process.

Public comments are published on *Regulations.gov*, a public facing website that provides public users ease of access to Federal regulatory content and a way to submit comments on regulatory documents published in the **Federal Register**. On *Regulations.gov*, the public can search, view, download, and comment on publicly available regulatory materials and post comments or provide supporting documents on rulemakings or **Federal Register** notices. Public comments published on *Regulations.gov* are maintained in the Federal Docket Management System (FDMS), a government-wide system that provides a platform for agencies to manage their rulemaking and content in *Regulations.gov*. FDMS allows Federal agencies to search, view, download, and review the public comments or supporting materials submitted on rulemakings and notices.

Regulations.gov and FDMS are managed by the General Services Administration (GSA) as the managing partner and government shared services provider to Federal partner agencies. Although GSA manages *Regulations.gov*

and FDMS and provides assistance to Federal partner agencies, each Federal partner agency accesses and manages its own rulemaking documents and comments in FDMS. Therefore, DOI is publishing this INTERIOR/DOI–21, eRulemaking Program, system of records notice to cover records collected, used and maintained by DOI in support of Federal rulemakings through FDMS and *Regulations.gov*, as well as, DOI bureau and office eRulemaking Programs that may include administrative records and comments, information, and documents received from the public as part of the public comment process through email correspondence, postal mail, or other methods. Each DOI bureau and office is responsible for managing its own docket and the comments or supporting materials submitted on its own rulemakings.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The INTERIOR/DOI–21, eRulemaking Program, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Participation

You should be aware that your entire comment including your personal identifying information, such as your address, phone number, email address, or any other personal identifying information in your comment, may be made publicly available at any time. While you may request to withhold your personal identifying information from public review, we cannot guarantee we will be able to do so.

D. To any criminal, civil, or regulatory law enforcement authority (whether Federal, state, territorial, local, Tribal or foreign) when a record, either alone or in conjunction with other information, indicates a violation or potential violation of law—criminal, civil, or regulatory in nature, and the disclosure is compatible with the purpose for which the records were compiled.

E. To an official of another Federal agency to provide information needed in the performance of official duties related to reconciling or reconstructing data files, or to enable that agency to respond to an inquiry by the individual to whom the record pertains.

F. To Federal, state, territorial, local, Tribal, or foreign agencies that have requested information relevant or necessary to the hiring, firing or retention of an employee or contractor, or the issuance of a security clearance, license, contract, grant or other benefit, when the disclosure is compatible with the purpose for which the records were compiled.

O. To the General Services Administration (GSA) or other Federal agency operating under a shared service provider cross-servicing agreement with DOI for purposes relating to the processing and maintenance of records, to reconstitute the system in case of system failure or helpdesk request, and to ensure the integrity of the system and the effective management of the eRulemaking Program.

P. To OMB, the Government Accountability Office (GAO), or other organization for the purpose of performing audit or oversight operations as authorized by law in accordance with their responsibilities for evaluating Federal programs, but only such information as is necessary and relevant to such audit or oversight function.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Paper records are contained in file folders stored in file cabinets in secure DOI controlled facilities. Electronic records are contained in removable drives, computers, email, electronic databases, backups maintained by DOI, and on secure servers maintained by GSA that are only accessed by authorized personnel.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records, comments and supporting materials submitted for DOI

rulemakings may be retrieved by various data elements and key word searches, including: Name, docket type, docket sub-type, agency docket ID, docket title, docket category, document type, CFR part, date comment received, and **Federal Register** publication date.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Retention periods may vary depending on the program, notice or purpose of the rulemaking or publication. Records of public comments are retained and disposed of in accordance with applicable DOI records schedules that have been approved by NARA based on the subject or function and records series. The majority of public comments related to **Federal Register** notices fall under the DOI Departmental Records Schedule (DRS). Records related to **Federal Register** notices are covered by DRS 1, Short-term Administration Records (DAA–0048–2013–0001–0001), which have a temporary disposition and are destroyed 3 years after cut-off. Records related to rulemaking are covered by DRS 3, Policy Records (DAA–0048–2013–0008–0010), Final Regulations, which have a Permanent disposition and are transferred to NARA 15 years after cut-off.

Records of public comments are disposed of in accordance with the applicable DOI records retention schedules and policy based on the program area and agency needs. When approved for destruction, paper records are disposed of by shredding or pulping, and records contained on electronic media are degaussed or erased in accordance with NARA guidelines and 384 Departmental Manual 1.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

The records contained in this system are safeguarded in accordance with 43 CFR 2.226 and other applicable security and privacy rules and policies. During normal hours of operation, paper records such as the original or scanned copies of the supporting materials received in response to DOI rulemakings and **Federal Register** notices are maintained in file cabinets under the control of authorized personnel.

Computer servers on which electronic records are stored are located in secured DOI-controlled facilities with physical, technical, and administrative levels of security to prevent unauthorized access to the DOI network and information assets. Access granted to authorized personnel is password-protected, and each person granted access to the system must be individually authorized

to use the system. A Privacy Act Warning Notice appears on the computer monitor screens when records containing information on individuals are first displayed. Data exchanged between the servers and the system is encrypted. Backup tapes are encrypted and stored in a locked and controlled room in a secure, off-site location.

Computerized records systems follow the National Institute of Standards and Technology privacy and security standards as developed to comply with the Privacy Act of 1974 as amended, 5 U.S.C. 552a; the Paperwork Reduction Act of 1995, Public Law 104–13, as codified at 44 U.S.C. 3501 *et seq.*; the Federal Information Security Modernization Act of 2014, Public Law 113–283, as codified at 44 U.S.C. 3551, *et seq.*; and the Federal Information Processing Standard 199, “Standards for Security Categorization of Federal Information and Information Systems.” Security controls include user identification, passwords, database permissions, encryption, firewalls, audit logs, network system security monitoring, and software controls.

Access to records in the system is limited to authorized personnel who have a need to access the records in the performance of their official duties, and each user’s access is restricted to only the functions and data necessary to perform that person’s job responsibilities. System administrators and authorized users are trained and required to follow established internal security protocols and must complete all security, privacy, and records management training and sign the DOI Rules of Behavior.

The GSA information technology system that hosts *Regulations.gov* and FDMS is located in a facility protected by physical walls, security guards, and requiring identification badges. Rooms housing the information technology system infrastructure are locked, as are the individual server racks. All security controls are reviewed on a periodic basis by external assessors. The controls themselves include measures for access control, security awareness training, audits, configuration management, contingency planning, incident response, and maintenance. Records in FDMS are maintained in a secure, password protected electronic system that utilizes security hardware and software to include multiple firewalls, active intrusion detection, encryption, identification and authentication of users.

As a partner agency, DOI manages access to FDMS through designated account managers in order to establish, manage, and terminate DOI user

accounts. DOI bureaus and offices have access to comments and supporting materials submitted on their own rulemakings and are responsible for managing those records in accordance with DOI policies and regulations.
