Background

On October 1, 2001, the Department published a notice of initiation of administrative review of the antidumping duty order on certain carbon steel butt-weld pipe fittings from Thailand, covering the period July 1, 2000 through June 30, 2001 (66 FR 49924). Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this review within the original time limit. Therefore, the Department is extending the time limit for completion of the preliminary results until no later than July 31, 2002. See Decision Memorandum from Holly Kuga to Bernard Carreau, dated concurrently with this notice, which is on file in the Central Records Unit, Room B-099 of the main Commerce building. We intend to issue the final results no later than 120 days after the publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce (the Department) regulations are to the regulations at 19 CFR part 351 (2000).

Scope of Order

For purposes of this order, the products covered are certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (i.e., flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this agreement.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels

with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this agreement, regardless of HTSUS definitions, are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 1.50 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.012 percent of boron, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.41 percent of titanium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this agreement unless otherwise excluded. The following products, by way of example, are outside and/or specifically excluded from the scope of this agreement:

Antidumping Duty Order

On February 11, 2002, the Department published its final results of the

administrative review and termination of the Suspension Agreement on hot-rolled steel from Brazil. See Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil: Final Results of Antidumping Duty Administrative Review and Termination of the Suspension Agreement 67 FR 6226 (February 11, 2002). Therefore, the Department will direct Customs to suspend liquidation effective November 13, 2001. In accordance with sections 734(i)(1)(A) and (i)(1)(c) of the Act, the Department hereby issues an antidumping duty order effective November 13, 2001, which is 90 days before the date of publication of the notice of suspension of liquidation.

In accordance with section 736(a)(1) of the Act, the Department will direct Customs officers to assess, upon further advice by the Department, antidumping duties equal to the amount by which the normal value of the subject merchandise exceeds the U.S. price of the subject merchandise for all relevant entries of hot-rolled steel from Brazil. These antidumping duties will be assessed on all unliquidated entries of hot-rolled steel from Brazil entered, or withdrawn from warehouse, for consumption on or after November 13, 2001, the date which is 90 days before the date of publication of the notice of suspension of liquidation in accordance with section 734(i)(1)(A)(i).

On or after the date of publication of this notice in the **Federal Register**, Customs officers must require, at the same time as importers would normally deposit estimated duties on this

merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins:

Manufacturer/exporter	Cash deposit rate (percent)
Companhia Siderurgica Nacional (CSN)	41.27%
Usinas Siderurgicas De Minas Gerais (USIMINAS)	43.40%
Companhia Siderurgica Paulista (COSIPA)	43.40%
All Others	42.12%

The "All Others" rate applies to all exporters in Brazil of subject merchandise not specifically listed.

This notice constitutes the antidumping duty order with respect to hot-rolled steel from Brazil. Interested parties may contact the Department's Central Records Unit, room B-099 of the main Commerce building, for copies of an updated list of the antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act.

Dated: March 4, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.
