

degradation of air and water quality, harmful algae blooms, hypoxia, fish kills, loss of drinking water supplies, loss of biodiversity, forest declines, and human health effects.

The SAB Integrated Nitrogen Committee undertook this study to assess linkages among the environmental effects of reactive nitrogen and to explore their implications for nitrogen research and risk management. The study recommends a more integrated approach to reactive nitrogen research and identifies opportunities for integrated approaches for nitrogen management.

Information about the work of the SAB Integrated Nitrogen Committee is available on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/yosemistr_activites/Nitrogen%20Project?OpenDocument.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: National Youth in Transition Database and Youth Outcome Survey—Final Rule.

OMB No.: 0970-0340.

Description: The Foster Care Independence Act of 1999 (42 U.S.C. 1305 *et seq.*) as amended by Public Law 106-169 requires State child welfare agencies to collect and report to the Administration on Children and Families (ACF) data on the characteristics of youth receiving independent living services and information regarding their outcomes. The regulation implementing the National Youth in Transition Database, listed in 45 CFR 1356.80, contains standard data collection and reporting requirements for States to meet the law's requirements. ACF will use the information collected under the regulation to track independent living services, assess the collective outcomes of youth, and potentially to evaluate State performance with regard to those outcomes consistent with the laws mandate.

Respondents: State agencies that administer the John H. Chafee Foster Care Independence Program.
