Under Council on Environmental Quality National Environmental Policy Act (NEPA) regulations (40 CFR 1506.10), the publication of this notice of availability in the **Federal Register** initiates a 45-day public comment period.

Background

The Spokane Tribe of Indians (Tribe) has requested that the Secretary of the Interior issue a two-part determination under Section 20 of the Indian Gaming Regulatory Act for Class III gaming on 145 acres held in Federal trust for the

Tribe near the City of Airway Heights, Washington. The 145-acre project is located immediately west of the city limits of Airway Heights in the unincorporated West Plains area of Spokane County, Washington.

The proposed project consists of the following components: (1) Issuance of a two-part determination by the Secretary of the Interior; and (2) development of a casino-resort facility, parking structure, site retail, commercial building, tribal cultural center, and police/fire station within the project site. At full build-out, the proposed casino-resort facility would have approximately 98,442 square feet of gaming floor and a 300-room hotel.

The following alternatives are considered in the DEIS: (1) Proposed casino and mixed-use development; (2) reduced casino and mixed-use development; (3) non-gaming mixed-use development; and (4) no action/no development. Environmental issues addressed in the DEIS include geology and soils, water resources, air quality, biological resources, cultural and paleontological resources, socioeconomic conditions (including environmental justice), transportation and circulation, land use, public services, noise, hazardous materials, aesthetics, cumulative effects, and indirect and growth inducing effects.

BIA issues the DEIS as lead agency, with the Spokane Tribe of Indians, National Indian Gaming Commission, Washington State Department of Transportation, City of Airway Heights, Spokane County, Federal Aviation Administration, and U.S. Department of the Air Force serving as cooperating agencies. BIA held a public scoping meeting for the project on September 16, 2009, in the City of Airway Heights, Washington.

Sec. 36, N $\frac{1}{2}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$.

Containing 2,013.76 acres, more or less.

The area described contains approximately 2,013.76 acres located in La Paz County, Arizona. The Western Area Power Administration announced its intention to prepare an Environmental Impact Statement (EIS) and initiated a public scoping process for the Proposed Project on January 14, 2010 (75 FR 2133). The BLM is a cooperating agency for the EIS based on its consideration of a ROW application for the Proposed Project. On March 30, 2011, the BLM announced the beginning of a scoping process to solicit public comments and identify issues associated

with a proposed resource management plan (RMP) amendment being considered in conjunction with the ROW application for the Proposed Project (76 FR 17668).

The BLM is segregating the lands under the authority contained in 43 CFR 2091.3-1(e) and 43 CFR 2804.25(e) for a period of 2 years, subject to valid existing rights. This 2-year segregation period will commence on March 2, 2012. These public lands will be segregated from appropriation under the public land laws, including the mining law, but not the mineral leasing or material sales acts. This segregation will not affect valid existing rights. It has been determined that this segregation is necessary for the orderly administration of the public lands by maintaining the status quo while the BLM processes the ROW application for the Proposed Project.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, if one of the following events occurs: (1) Upon the issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a right-of-way; (2) Upon publication of a **Federal Register** notice of termination of the segregation; or (3) Without further administrative action at the end of the segregation provided for in this **Federal Register** notice initiating the segregation, whichever occurs first.

Any segregation made under this authority would be effective only for a period of up to 2 years. The lands to be segregated pursuant to the authority at 43 CFR 2091.3-1(e) and 2804.25(e) are identified in the legal description provided above.

Raymond Suazo,
State Director.

Authority: 43 CFR 2091.3-1(e), 43 CFR 2804.25(e).
