History and Description of the Human Remains

In October of 1957, human remains and an associated object representing, at minimum, three individuals were removed from the Sun and Snow Mounds site (20WX7) in Wexford County, MI. Records of the University of Michigan Museum of Anthropological Archaeology (UMMAA) note that the

Director of the Cadillac-Wexford Public Library donated the human remains and the associated funerary object to the Museum on December 23, 1957. The human remains reportedly came from two separate burials, but how the site was found and how the human remains and associated funerary object were collected are unclear. The human remains include one child, 4–6 years old; one adolescent, 16–19 years old, possibly male; and one adult, indeterminate sex. The human remains date to the Woodland Period (850 B.C.–A.D. 1400) based on the diagnostic chert blade. No known individuals were identified. The one associated funerary object is one chert blade.

- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains and the associated funerary object were removed is the aboriginal land of The Consulted and Invited Tribes.
- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains and the associated funerary object may be to The Consulted and Invited Tribes.

Washington Square, Lansing, MI 48913, telephone (517) 243–9513, email hambacher@michigan.gov, by November 16, 2022.
