

required documentary evidence directly to the Assistant Administrator.

As a part of the annual review process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Government of Mexico or obtained from the IATTC and the Department of State and determined that Mexico has met the MMPA's requirements to receive an affirmative finding.

After consultation with the Department of State, NMFS renewed the Government of Mexico's affirmative finding allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by Mexican-flag purse seine vessels or purse seine vessels operating under Mexican jurisdiction.

The Government of Mexico must submit a new application in early 2005 for an affirmative finding to be effective for the period April 1, 2005, through March 31, 2006, and the subsequent 4 years.

Dated: July 30, 2004.

John Oliver,

Deputy Assistant Administrator for Operation, National Marine Fisheries Service.
