

SUPPLEMENTARY INFORMATION: The OCC is proposing to extend OMB approval of the following information collection:

Title: International Regulation—12 CFR 28.

OMB Number: 1557-0102.

Description: This submission covers an existing regulation and involves no change to the regulation or to the information collection. The OCC requests only that OMB extend its approval of the information collection. The OCC's regulations at 12 CFR part 28 implement requirements imposed on national banks and Federal branches and agencies concerning international activities. The information collections in part 28 that are covered by this notice are as follows:

Section 28.3 requires a national bank to notify the OCC when it takes certain actions regarding its foreign operations.

Section 28.14 requires a foreign bank to designate one Federal branch or agency to maintain consolidated information for purposes of monitoring compliance with limitations based upon capital.

Section 28.15 requires a foreign bank with a Federal branch or agency to maintain records regarding its capital equivalency deposit (CED), including agreements entered into with the OCC and a depository bank regarding the CED, and liabilities requiring CED coverage. Section 28.15 also requires a foreign bank to apply to the OCC for exceptions to its rules regarding the CED.

Section 28.16 requires an uninsured Federal branch to maintain records regarding its deposits, such as the average of its deposits during the last 30 days, if the Federal branch seeks to accept deposits from types of depositors that are not listed in the regulation. Section 28.16 also requires a foreign bank to apply to the OCC for an exemption allowing its uninsured Federal branch to accept or maintain types of deposit accounts not listed in the regulation.

Section 28.18 requires a Federal branch or agency to comply with the record keeping and reporting requirements that apply to a national bank, as well as any additional requirements that may be prescribed by the OCC. It requires a Federal branch or agency to maintain records of its transactions separate from those of the parent foreign bank or other branches and agencies of that bank. It also requires the Federal branch or agency to provide the OCC with a copy of certain reports filed with other Federal regulatory agencies.

Section 28.20 requires a foreign bank that is subject to an asset maintenance

requirement to keep records of assets maintained in the state in which the Federal branch or agency is located and records of liabilities on which the asset maintenance requirement is based.

Section 28.52 requires a national bank or District of Columbia bank to maintain records regarding any allocated transfer risk reserve for specified international assets.

Section 28.53 requires a national bank or District of Columbia bank to maintain records regarding its accounting for fees and administrative costs on restructured international loans.

These information collection requirements ensure bank compliance with applicable Federal law, further bank safety and soundness, provide protections for banks, and further public policy interests.
