

Docket No. 03–185, FCC 15–175. This document contains final rules and policies for a digital-to-digital replacement digital replacement translator to permit full power television stations to continue to provide service to viewers that may have otherwise lost service as a result of the station being “repacked” in the Commission’s incentive auction process.

47 CFR 74.787(a)(5)(v) states that an application for an digital to digital replacement translator may be filed by a full power television station that can demonstrate that a portion of its digital service area will not be served by its full, post-incentive auction digital facilities. The service area of the replacement translator shall be limited to only a demonstrated loss area.

However, an applicant for a replacement digital television translator may propose a *de minimis* expansion of its full power pre-transition analog service area upon demonstrating that it is necessary to replace its post-incentive auction digital loss area.
