The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number.

Total Annual Burden: 112 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not require the collection of personal identifiable information (PII) from individuals.

Privacy Impact Assessment: No impact(s).

Needs and Uses: In August 2003, the Commission released Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket No. 98-67, Declaratory Ruling, published at 68 FR 55898, September 28, 2003. In the Declaratory Ruling, the Commission clarified that one-line captioned telephone voice carry over (VCO) service (CTS) is a type of telecommunications relay service (TRS) eligible for compensation from the Interstate TRS Fund (Fund). The Commission also clarified that certain TRS mandatory minimum standards do not apply to one-line CTS, and waived portions of 47 CFR 64.604(a)(1) and (a)(3). Parts of the waivers were contingent on the filing of annual reports with the Commission detailing providers' compliance with the Declaratory Ruling, and any technological advances that might enable CTS providers to meet those waived standards. Among the standards not waived, however, was the requirement in 47 CFR 64.604(c)(1) that each provider maintain a log of consumer complaints that must be submitted to the Commission annually.

In July 2005, the Commission released Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket No. 98-67 and CG Docket No. 03-123, Order, published at 70 FR 54294, September 14, 2005, clarifying that two-line CTS is a type of TRS eligible for compensation from the Fund. In so doing, the Commission found that two-line CTS "is simply a variation of" CTS that offers the same functionality while also offering the user additional features. Therefore, the same waivers and waiver

reporting and complaint log obligations applicable to one-line CTS have also applied to two-line CTS.

In January 2007, the Commission released Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities; Internet-based Captioned Telephone Service, CG Docket No. 03-123, Declaratory Ruling, published at 72 FR 6960, February 14, 2007, clarifying that Internet Protocol CTS (IP CTS) is a type of TRS eligible for compensation from the Fund when offered in compliance with the applicable TRS mandatory minimum standards. In so doing, the Commission waived or declared inapplicable some of these standards for IP CTS, consistent with waivers granted and other findings with respect to the provision of CTS and IP Relay, to the extent that IP CTS shares characteristics with both of those services. Like with those services, however, the Commission required IP CTS providers to file waiver reports for those waivers contingent on the filing of such reports, and the requirement to file complaint logs was not waived.

This notice covers the information collection burdens associated with the filing of these waiver reports and complaint logs.

Federal Communications Commission.
