

to provide information to victims of transportation accidents, and/or victims' family members and friends. The NTSB's purpose in proposing to use the form is to ensure that the NTSB has correct contact information for family members and friends of victims and/or survivors to whom the Office of Transportation Disaster Assistance will provide information. The form will solicit the following information: (1) First and last name of family member, friend, or survivor who seeks to receive updates; (2) home, cellular, and/or other telephone number; (3) e-mail address; (4) mailing address; (5) victim's name and description of requestor's relationship to victim; and (6) other comments or instructions, if desired.

The NTSB notes that completion of the form is voluntary. In addition, the NTSB will accept forms that are only partially completed; for example, some individuals may not wish to include their telephone numbers, but will include their e-mail addresses. The NTSB accepts all forms that contain any type of contact information, as the NTSB is committed to providing information to and coordinating services for family members, friends, and survivors of transportation accidents. Once a person completes the form, the NTSB will add their name to a list of individuals whom the NTSB will contact to provide information and coordinate services.

The NTSB has carefully reviewed the form to ensure that it has used plain, coherent, and unambiguous terminology in its request for information. The form is not duplicative of other agencies' collections of information. The NTSB believes this proposed form, given its brevity, will impose a minimal burden on respondents: the NTSB estimates that respondents will spend, at most, 10 minutes in completing the form. The NTSB estimates that approximately 50 respondents per year will complete the form, but notes that this number may vary, given the unpredictable nature of the frequency of transportation accidents.

SOCIAL SECURITY ADMINISTRATION

Listening Session Regarding Improving the Accessibility of Government Information

AGENCY: U.S. Council of CIOs, SSA.

ACTION: Notice of meeting.

On behalf of the Accessibility Committee of the U.S. Council of CIOs 29 U.S.C. 794d.

SUMMARY: This notice announces a listening session being conducted in response to a memo dated July 19, 2010, from the Office of Management and Budget (OMB) on "Improving the Accessibility of Government Information." Section 508 of the Rehabilitation Act (29 U.S.C. 794d) requires Federal agencies to buy and use electronic and information technology (EIT) that is accessible. The July memo directs agencies to take stronger steps toward improving the acquisition and implementation of accessible technology. In order to better understand the needs of diverse communities and provide better solutions, the U.S. Council of CIOs, in collaboration with the Chief Acquisition Officers Council, the GSA Office of Governmentwide Policy and the U.S. Access Board, is holding the second in a series of listening sessions to engage citizens and employees in expressing concerns and proposing ideas. Persons with disabilities, their advocates, technology companies, government employees and other interested parties are invited to participate.

DATES: The listening session will be held on Tuesday, December 14, 2010, from 2 p.m. to 5 p.m. Eastern Standard Time (EST).

Persons wishing to address the panel at the listening session can pre-register by contacting Emily Koo at (410) 965-4472 or Innovate.Accessibility@ssa.gov. Pre-registrants will be given priority in addressing the panel in Washington, DC. Registration will also be available in person in Washington, DC on the afternoon of the listening session.

Meeting Location: The listening session will be held at the Marvin Center at George Washington University, 800 21st St., Washington, DC, in the Grand Ballroom.

Accommodations: The listening session will have sign language interpreters; CART (real time captioning) services, Assistive Listening Devices (ALDs), microphones and materials will be available in Braille, large print and electronic formats. The Marvin Center is wheelchair accessible. Anyone needing other accommodations should include a specific request when registering in advance.

FOR FURTHER INFORMATION CONTACT:

mailto: Emily Koo at (410) 965-4472 or Innovate.Accessibility@ssa.gov.

SUPPLEMENTARY INFORMATION: In 1998, Congress amended the Rehabilitation Act of 1973 to require Federal agencies to make their electronic and information

technology (EIT) accessible to people with disabilities. Inaccessible technology interferes with an ability to obtain and use information quickly and easily. Section 508 was enacted to eliminate barriers in information technology, open new opportunities for people with disabilities, and encourage development of technologies that will help achieve these goals. The law applies to all Federal agencies when they develop, procure, maintain, or use electronic and information technology. Under Section 508 (29 U.S.C. '794 d), agencies must give disabled employees and members of the public access to information that is comparable to access available to others.

Effective implementation of Section 508 is an essential element of President Obama's principles of open government, requiring that all government and data be accessible to all citizens. In order for the goal of open government to be meaningful for persons with disabilities, technology must also be accessible, including digital content. In July 2010, the OMB took steps to assure that the Federal government's progress in implementing Section 508 is stronger and achieves results more quickly.

Section 508 requires the GSA to provide technical assistance to agencies on Section 508 implementation. GSA has created a number of tools, available at <http://www.Section508.gov>, to help agencies to develop accessible requirements, test the acceptance process, and share lessons learned and best practices. For example:

- The BuyAccessible Wizard, <http://www.buyaccessible.gov>, helps build compliant requirements and solicitations;
- The Quick Links site, <https://app.buyaccessible.gov/baw/KwikLinksMain.jsp>, provides pre-packaged Section 508 solicitation documents;
- The BuyAccessible Products and Services Directory, <https://app.buyaccessible.gov/DataCenter/> provides a registry of companies and accessibility information about their offerings; and
- The Section 508 blog <http://buyaccessible.net/blog/> provides a venue where stakeholders may share ideas and success stories, or engage in conversations on improving accessibility.

The OMB has directed that several actions be taken to improve 508 performance:

- By Mid-January 2011, the GSA Office of Governmentwide Policy (OGP) will provide updated guidance on making government EIT accessible. This guidance will build upon existing
