

creditor that together with the assets of its affiliates that regularly extended first-lien covered transactions during calendar year 2018 had total assets of less than \$2,167,000,000 on December 31, 2018, satisfied this criterion for purposes of any loan consummated in 2019 and for purposes of any loan consummated in 2020 for which the application was received before April 1, 2020.

8. For calendar year 2020, the asset threshold was \$2,202,000,000. A creditor that together with the assets of its affiliates that regularly extended first-lien covered transactions during calendar year 2019 had total assets of less than \$2,202,000,000 on December 31, 2019, satisfied this criterion for purposes of any loan consummated in 2020 and for purposes of any loan consummated in 2010 for which the application was received before April 1, 2021.

iv. The creditor and its affiliates do not maintain an escrow account for any mortgage transaction being serviced by the creditor or its affiliate at the time the transaction is consummated, except as provided in § 1026.35(b)(2)(iii)(D)(1) and (2). Thus, the exemption applies, provided the other conditions of § 1026.35(b)(2)(iii) are satisfied, even if the creditor previously maintained escrow accounts for mortgage loans, provided it no longer maintains any such accounts except as provided in § 1026.35(b)(2)(iii)(D)(1) and (2). Once a creditor or its affiliate begins escrowing for loans currently serviced other than those addressed in § 1026.35(b)(2)(iii)(D)(1) and (2), however, the creditor and its affiliate become ineligible for the exemption in § 1026.35(b)(2)(iii) on higher-priced mortgage loans they make while such escrowing continues. Thus, as long as a creditor (or its affiliate) services and maintains escrow accounts for any mortgage loans, other than as provided in § 1026.35(b)(2)(iii)(D)(1) and (2), the creditor will not be eligible for the exemption for any higher-priced mortgage loan it may make. For purposes of § 1026.35(b)(2)(iii), a creditor or its affiliate “maintains” an escrow account only if it services a mortgage loan for which an escrow account has been established at least through the due date of the second periodic payment under the terms of the legal obligation.

Addition of Entities to the Entity List, Revision of Entry on the Entity List, and Removal of Entities From the Entity List

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding seventy-seven entities, under a total of seventy-eight entries, to the Entity List. These seventy-seven entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. These entities will be listed on the Entity List under the destinations of the People's Republic of China (China), Bulgaria, France, Germany, Hong Kong, Italy, Malta, Pakistan, Russia, and the United Arab Emirates (U.A.E.). This rule also revises one existing entry on the Entity list under the destination of China and one under the destination of Pakistan. Finally, this rule removes a total of four entities under the destinations of Israel and the U.A.E. The removals are made in connection with requests for removal that BIS received pursuant to the EAR and a review of information provided in those requests.

DATES: This rule is effective December 18, 2020.

FOR FURTHER INFORMATION CONTACT: Chair, End-User Review Committee, Office of the Assistant Secretary, Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482–5991, Fax: (202) 482–3911, Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Entity List (supplement No. 4 to part 744 of the Export Administration Regulations (EAR)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States. The EAR (15 CFR parts 730–774) impose additional license requirements on, and limit the availability of most license exceptions for, exports, reexports, and transfers (in-country) to listed entities. The license review policy for each listed entity is identified in the “License review policy” column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** notice adding entities to the Entity List. BIS places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and all decisions to remove or modify an entry by unanimous vote.

ERC Entity List Decisions

Additions to the Entity List

Under § 744.11(b) (Criteria for revising the Entity List) of the EAR, entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities that are contrary to the national security or foreign policy interests of the United States, and those acting on behalf of such entities, may be added to the Entity List. Paragraphs (b)(1) through (5) of § 744.11 provide an

illustrative list of activities that could be considered contrary to the national security or foreign policy interests of the United States.

This rule implements the decision of the ERC to add seventy-seven entities, under a total of seventy-eight entries, to the Entity List; one of these entities is being added under two entries. These seventy-seven entities will be listed on the Entity List under the following destinations, as applicable, China, Bulgaria, France, Germany, Hong Kong, Italy, Malta, Pakistan, Russia, and the U.A.E. The ERC made the decision to add each of the seventy-seven entities described below under the standard set forth in § 744.11(b) of the EAR.

The ERC determined that the seventy-seven subject entities are engaging in or enabling activities contrary to U.S. national security and foreign policy interests, as follows:

Semiconductor Manufacturing International Corporation Incorporated (SMIC) is added to the Entity List as a result of China's military-civil fusion (MCF) doctrine and evidence of activities between SMIC and entities of concern in the Chinese military industrial complex. The Entity List designation limits SMIC's ability to acquire certain U.S. technology by requiring exporters, reexporters, and in-country transferors of such technology to apply for a license to sell to the company. Items uniquely required to produce semiconductors at advanced technology nodes 10 nanometers or below will be subject to a presumption of denial to prevent such key enabling technology from supporting China's military modernization efforts. This rule adds SMIC and the following ten entities related to SMIC: Semiconductor Manufacturing International (Beijing) Corporation; Semiconductor Manufacturing International (Tianjin) Corporation; Semiconductor Manufacturing International (Shenzhen) Corporation; SMIC Semiconductor Manufacturing (Shanghai) Co., Ltd.; SMIC Holdings Limited; Semiconductor Manufacturing South China Corporation; SMIC Northern Integrated Circuit Manufacturing (Beijing) Co., Ltd.; SMIC Hong Kong International Company Limited; SJ Semiconductor; and Ningbo Semiconductor International Corporation (NSI).

The ERC determined to add the entities AGCU Sciencetech; China National Scientific Instruments and Materials (CNSIM); DJI; and Kuang-Chi Group for activities contrary to U.S. foreign policy interests. Specifically, these four entities have enabled wide-scale human rights abuses within China through abusive genetic collection and
