The petitioner also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: replacement of the instrument cluster with a conforming U.S.-model component.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: installation of the following conforming U.S.-model components on vehicles that are not already so equipped: (a) Front side marker lamps; (b) headlamps; (c) tail lamps with integral rear side marker lamps; and (d) a high mounted stop lamp.

Standard No. 110 *Tire Selection and Rims*: installation of a tire information placard.

Standard No. 111 *Rearview Mirrors*: installation of a conforming U.S.-model passenger side rearview mirror, or inscription of the required warning statement on the face of that mirror.

Standard No. 208 *Occupant Crash Protection*: installation of a supplemental seat belt warning buzzer to ensure that the seat belt warning system meets the requirements of this standard.
