The lands we surveyed are:

Principal Meridian, Montana

T. 24 N., R. 40 E.

The plat, in one sheet, representing the dependent resurvey of a portion of the west boundary, and a portion of the subdivisional lines, and the subdivision of sections 18 and 19, Township 24 North, Range 40 East, Principal Meridian, Montana, was accepted May 28, 2012.

We will place a copy of the plat, in one sheet, and related field notes we described in the open files. They will be available to the public as a matter of information. If the BLM receives a protest against this survey, as shown on this plat, in one sheet, prior to the date

of the official filing, we will stay the filing pending our consideration of the protest. We will not officially file this plat, in one sheet, until the day after we have accepted or dismissed all protests and they have become final, including decisions or appeals.

SUPPLEMENTARY INFORMATION: Pattern Energy, Inc., through its wholly owned subsidiary, Ocotillo Express LLC, filed right-of-way (ROW) application CACA-51552 for the OWEF. The project as originally proposed would have consisted of 155 wind turbines (1.6 to 3.0 MW each) on 12,436 acres of predominately BLM-managed lands with a generating capacity of up to 465 MW and the following ancillary facilities; a substation; administration, operations and maintenance facilities; transmission lines; and temporary construction lay down areas. The project site is located west of the city of El Centro in Imperial County, California.

The project site is in the California Desert District within the planning boundary of the CDCA Plan, which is the applicable Resource Management Plan for the project site and surrounding areas. The CDCA Plan, while recognizing the potential compatibility of wind energy generation facilities with other uses on public lands, requires that all sites associated with power generation or transmission not already identified in the Plan be considered through the BLM's land use plan amendment process. As a result, in connection with its approval of a ROW grant for the OWEF, the BLM had to amend the CDCA Plan to recognize the project site as suitable for wind energy development. The approved Amendment to the CDCA Plan specifically amends the CDCA Plan to make such a determination.

The BLM Preferred Alternative identified in the Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR) is the Refined Project, which involves the construction and operation of 112 wind turbines at the project site, with a generating capacity of up to 315 MW. The Refined Project eliminates 43 turbines that were analyzed under the Proposed Action in order to reduce effects to cultural

resources. The Refined Project configuration is comprised of a subset of the turbine sites that are already part of the existing alternatives analyzed in the Final EIS/EIR. The Refined Project was approved by the ROD and will result in construction of the wind generation facility consisting of: up to 112 turbines with a generating capacity of 315 MW on approximately 10,151 acres of BLM-managed lands in Imperial Valley, California, and the following ancillary facilities: a substation; administration, operations and maintenance facilities; transmission lines; and temporary construction lay down areas.

With respect to the plan amendment, the publication of the Notice of Availability for the Final EIS/EIR on March 9, 2012 initiated a 30-day protest period on the proposed plan amendment, which concluded April 9, 2012. The BLM received 12 timely and complete written protests, each of which was resolved prior to the execution of the ROD. These protest resolutions are summarized in the Director's Protest Summary Report attached to the ROD. The proposed amendment to the CDCA Plan was not modified as a result of the protests received or their resolution. Simultaneously with the plan amendment protest period, the Governor of California conducted an expedited 30-day consistency review of the proposed CDCA Plan amendment to identify any inconsistencies with State or local plan, policies or programs; no inconsistencies were identified by the Governor's Office.

Because this decision is approved by the Secretary of the Interior, it is not subject to administrative appeal (43 CFR 4.410(a)(3)).

Authority: 40 CFR 1506.6.

Timothy Spisak,

Deputy Assistant Director, Bureau of Land Management.
