BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 81

[EPA-R05-OAR-2017-0277; FRL-9974-86—Region 5]

Air Plan Approval; Illinois; Redesignation of the Illinois Portion of the St. Louis-St. Charles-Farmington, Missouri-Illinois Area to Attainment of the 2008 Ozone Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to find that the St. Louis-St. Charles-Farmington, Missouri-Illinois (MO-IL) area, “the St. Louis area,” is attaining the 2008 ozone National Ambient Air Quality Standard (NAAQS or standard) and is redesignating the Illinois portion of the St. Louis area, “the Metro-East area,” to attainment for the 2008 ozone NAAQS because the Metro-East area meets the statutory requirements for redesignation under the Clean Air Act (CAA). The St. Louis area includes Madison, Monroe and St. Clair Counties in Illinois (the Metro-East area), and Franklin, Jefferson, St. Charles, and St. Louis Counties and the City of St. Louis in Missouri. (EPA will address the Missouri portion of the St. Louis area in a separate rulemaking action.) EPA is also approving, as a revision to the Illinois State Implementation Plan (SIP), the State’s plan for maintaining the 2008 ozone standard through 2030 in the St. Louis area. Finally, EPA finds adequate and is approving, as a SIP revision, the State’s 2030 volatile organic compound (VOC) and oxides of nitrogen (NO_x) Motor Vehicle Emission Budgets (MVEBs) for the Metro-East area. The Illinois Environmental Protection Agency (IEPA) submitted the SIP revision and request to redesignate the Metro-East area on May 8, 2017. EPA proposed this action on December 8, 2017 and received two public comments in response that are not relevant to this action.

DATES: This final rule is effective March 1, 2018.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R05-OAR-2017-0277. All documents in the docket are listed in the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available,

e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through <http://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Kathleen D’Agostino, Environmental Scientist, Attainment Planning and Maintenance Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-1767, dagostino.kathleen@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

I. What is being addressed in this document?

This rule takes action on the submission from IEPA, dated May 8, 2017, requesting redesignation of the Metro-East area to attainment for the 2008 ozone standard. The background for this action is discussed in detail in EPA’s proposal, dated December 8, 2017 (82 FR 57892). In that rulemaking, we noted that, under EPA regulations at 40 CFR part 50, the 2008 ozone NAAQS is attained in an area when the 3-year average of the annual fourth highest daily maximum 8-hour average concentration is equal to or less than 0.075 parts per million, when truncated after the thousandth decimal place, at all of the ozone monitoring sites in the area. (See 40 CFR 50.15 and appendix P to 40 CFR part 50.) Under the CAA, EPA may redesignate nonattainment areas to attainment if sufficient complete, quality-assured data are available to determine that the area has attained the standard and if it meets the other CAA redesignation requirements in section 107(d)(3)(E). The proposed rule provides a detailed discussion of how Illinois has met these CAA requirements.

As discussed in the December 8, 2017, proposal, quality-assured and certified monitoring data for 2014–2016 and preliminary data for 2017 show that the St. Louis area has attained and continues to attain the 2008 ozone standard. In the maintenance plan submitted for the area, Illinois has demonstrated that the ozone standard will be maintained in the area through 2030. Finally, Illinois adopted 2030

VOC and NO_x MVEBs for the Metro East portion of the St. Louis area that are adequate and supported by IEPA’s maintenance demonstration.

II. What comments did we receive on the proposed rule?

EPA provided a 30-day review and comment period for the December 8, 2017, proposed rule. The comment period ended on January 8, 2018. We received two comments, which were related to general concerns about wildfires and the EPA Administrator. These comments are not specific to this action and thus are not addressed here.

III. What action is EPA taking?

No comments were submitted that change our assessment of the rule as described in our proposed action. Therefore, EPA is determining that the St. Louis nonattainment area is attaining the 2008 ozone standard, based on quality-assured and certified monitoring data for 2014–2016, and that the Metro-East portion of this area has met the requirements for redesignation under section 107(d)(3)(E) of the CAA. EPA is thus approving IEPA’s request to change the legal designation of the Metro-East portion of the St. Louis area from nonattainment to attainment for the 2008 ozone standard. EPA is also approving, as a revision to the Illinois SIP, the state’s maintenance plan for the area. The maintenance plan is designed to keep the St. Louis area in attainment of the 2008 ozone NAAQS through 2030. Finally, EPA finds adequate and is approving, as a SIP revision, the newly-established 2030 MVEBs for the Metro-East area.

In accordance with 5 U.S.C. 553(d), EPA finds there is good cause for these actions to become effective immediately upon publication. This is because a delayed effective date is unnecessary due to the nature of a redesignation to attainment, which relieves the area from certain CAA requirements that would otherwise apply to it. The immediate effective date for this action is authorized under both 5 U.S.C. 553(d)(1), which provides that rulemaking actions may become effective less than 30 days after publication if the rule “grants or recognizes an exemption or relieves a restriction,” and section 553(d)(3), which allows an effective date less than 30 days after publication “as otherwise provided by the agency for good cause found and published with the rule.” The purpose of the 30-day waiting period prescribed in section 553(d) is to give affected parties a reasonable time to adjust their behavior and prepare before the final rule takes effect. This rule,

however, does not create any new regulatory requirements such that affected parties would need time to prepare before the rule takes effect. Rather, this rule relieves the state of planning requirements for this ozone nonattainment area. For these reasons, EPA finds good cause under 5 U.S.C. 553(d)(1) and (3) for these actions to become effective on the date of publication of these actions.

IV. Statutory and Executive Order Reviews

Under the CAA, redesignation of an area to attainment and the accompanying approval of a maintenance plan under section 107(d)(3)(E) are actions that affect the status of a geographical area and do not impose any additional regulatory requirements on sources beyond those imposed by state law. A redesignation to attainment does not in and of itself create any new requirements, but rather results in the applicability of requirements contained in the CAA for areas that have been redesignated to attainment. Moreover, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely

affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because redesignation is an action that affects the status of a geographical area and does not impose any new regulatory requirements on tribes, impact any existing sources of air pollution on tribal lands, nor impair the maintenance of ozone national ambient air quality standards in tribal lands.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**.

This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 30, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Oxides of nitrogen, Ozone, Volatile organic compounds.

40 CFR Part 81

Environmental protection, Administrative practice and procedure, Air pollution control, Designations and classifications, Intergovernmental relations, Nitrogen oxides, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: February 14, 2018.

Cathy Stepp,

Regional Administrator, Region 5.

40 CFR parts 52 and 81 are amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

- 2. In § 52.720, the table in paragraph (e) is amended by adding the entry “Ozone (8-hour, 2008) redesignation and maintenance plan” following the entry for “Ozone (8-hour, 2008) Determination of Attainment” to read as follows:

§ 52.720 Identification of plan.

* * * * *

(e) * * *

EPA-APPROVED ILLINOIS NONREGULATORY AND QUASI-REGULATORY PROVISIONS

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Comments
Attainment and Maintenance Plans				
Ozone (8-hour, 2008) redesignation and maintenance plan.	St. Louis area	5/8/2017	3/1/2018 [insert Federal Register citation].	

PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES

■ 3. The authority citation for part 81 continues to read as follows:

Authority: 42 U.S.C. 7401, *et seq.*

■ 4. Section 81.314 is amended by revising the entry “St. Louis-St. Charles-Farmington, MO-IL:” in the table entitled “Illinois—2008 8-Hour Ozone

NAAQS (Primary and secondary)” to read as follows:

§ 81.314 Illinois.

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 180**

[EPA-HQ-OPP-2017-0447; FRL-9971-19]

Methyl Bromide; Pesticide Tolerances for Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes time-limited tolerances for residues of the fumigant methyl bromide, including its metabolites and degradates in or on post-harvest imported/domestic agricultural commodities. This action is in response to EPA's granting quarantine exemptions under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of the pesticide on specified agricultural commodities. This

regulation establishes a maximum permissible level for residues of methyl bromide in or on these commodities. The time-limited tolerances expire on December 31, 2020.

DATES: This regulation is effective March 1, 2018. Objections and requests for hearings must be received on or before April 30, 2018, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2017-0447, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP

Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Michael Goodis, Director, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: RDfRNtices@epa.gov.

SUPPLEMENTARY INFORMATION:**I. General Information****A. Does this action apply to me?**

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
