Demonstration Program Selection Process

Selections from qualified applications that have requested consideration and met all requirements for this Demonstration Program will be based on priority scores they received on their previously submitted applications, with the highest scoring applications being selected first, until all available Demonstration Program authority is used. In the event of a tie, priority will be given to the application that is in the smaller rural community, and in case of a subsequent tie to the application that has the lowest LTC ratio.

The first round of selections into the Demonstration Program will be made on May 20, 2010. In the event there are not enough qualified requests for selection into the Demonstration Program to utilize all the available Demonstration Program authority, then until all funds are exhausted, an additional selection process will be conducted on the 3rd Friday of each month starting September 17, 2010. December 17, 2010, will be the last possible selection date unless the Final Rule is published as explained below. All applicants will be notified of the selection results no later than 30 business days from the date of selection.

DATES: Effective Dates: The GRRHP intends to incorporate the guarantee offered under this demonstration as a permanent part of the program. To that end we have published in the **Federal Register** (January 29, 2009, Volume 75 FR 4707–4710) a proposed rule for “Continuous Construction-Permanent Loan Guarantees.” This Notice will terminate upon the earlier of either the publication date of the final rule or December 17, 2010.

SUPPLEMENTARY INFORMATION: *Title:* Supplemental Nutrition Assistance Program's (SNAP) Quality Control Regulations, Part 275.

OMB Number: 0584-0303.

Expiration Date: November 30, 2010.

Type of Request: Revision of a currently approved collection.

Abstract: There are three components of the Quality Control (QC) system that are covered in this proposed information collection. They are: (1) The sampling plan; (2) the arbitration process; and (3) the good cause process. Each State is required to develop a sampling plan that demonstrates the integrity of its case selection procedures. The QC system is designed to measure each State agency's payment error rate based on a statistically valid sample of SNAP cases. A State agency's payment error rate represents the proportion of cases that were reported through a QC review as being ineligible, overissued and underissued SNAP benefits.

The QC system contains procedures for resolving differences in review findings between State agencies and FNS. This is referred to as the arbitration process. The QC system also contains procedures that provide relief for State agencies from all or a part of a QC liability when a State agency can demonstrate that a part or all of an excessive error rate was due to an unusual event that had an uncontrollable impact on the State agency's payment error rate. This is referred to as the good cause process.

The approved burden for the QC system includes the burden for the QC sampling plan, the arbitration process,

and the good cause process. The annual reporting burden associated with the QC sampling plan remains at 265 hours. We estimate the annual reporting burdens associated with arbitration and good cause processes to total 936 hours and 160 hours, respectively. The increase in the proposed burden from the currently approved 840 to 936 hours for the arbitration process is due to an increase in the number of State agencies estimated to respond from 14 to 15 and to the estimated number of responses per State agency from 2.5 to 2.6. These increases are a result of State agencies more frequently disagreeing with FNS' findings. The proposed annual reporting burden for the good cause process is unchanged from the currently approved burden of 160 hours. The total reporting burden for the QC system is, therefore, 1,361 hours.

The proposed annual recordkeeping burden associated with the QC sampling plan is 1.25 hours per year. The proposed annual recordkeeping burdens associated with arbitration have increased from 0.83 to 0.92 hours and the good cause process remains at 0.0236 hour. The recordkeeping burden for the arbitration process increased from 0.83 hour to 0.92 hour due to an increase in the estimated number of affected State agencies from 14 to 15 and an increase in the estimated number of responses per State from 2.5 to 2.6. The recordkeeping burden for the good cause process remains at 0.0236 hours. The total burden for recordkeeping is 2.19 hours. As a result, the total annual burden for the QC system, as proposed by this notice, increased from 1,267 to 1,363 hours.

Quality Control System Reporting Burden Associated with the Sampling Plan, Arbitration, and Good Cause:

REPORTING BURDEN

Affected public	Requirement	Number of respondents	Number of responses/respondent	Total responses per year	Time per response (hrs)	Annual reporting burden (hrs)
State Agencies	Sampling Plan	53	1	1	5	265
State Agencies	Arbitration Process	15	2.6	39	24	936
State Agencies	Good Cause Process	1	1	1	160	160
						1,361

Quality Control System Recordkeeping Burden Associated with

the Sampling Plan, Arbitration, and Good Cause:

RECORDKEEPING BURDEN

Affected public	Requirement	Number of records	Number of records/state	Time per record (hrs)	Total annual recordkeeping burden (hrs)	Total annual reporting & recordkeeping burden (hrs)
State Agencies	Sampling Plan	53	1	0.0236	1.25	266.25
State Agencies	Arbitration Process	15	2.6	0.0236	0.92	936.92
State Agencies	Good Cause Process	1	N/A	0.0236	0.0236	160.02
					2.1936	1,363.19

The Combined Quality Control System's Estimated Burden (includes the burdens associated with the Sampling Plan, Arbitration and Good Cause): (Reporting 1,361 + Recordkeeping 2 burden hours) = 1,363 hours.

Dated: April 29, 2010.

SUPPLEMENTARY INFORMATION:

Description of Information Collection

Title: Noninsured Crop Disaster Assistance Program.

OMB Number: 0560-0175.

Expiration Date: November 30, 2010.

Type of Request: Extension with no revision.

Abstract: The NAP is authorized under 7 U.S.C. Section 7333 and implemented under regulations issued at 7 CFR Part 1437. The NAP is administered under the general supervision of the Executive Vice-President of CCC (who also serves as Administrator, FSA), and is carried out by FSA State and County committees. The information collected allows CCC to provide assistance under NAP for losses of commercial crops or other agricultural commodities (except livestock) for which catastrophic risk protection under 7 U.S.C Section 1508 is not available, and that are produced for food or fiber.

Additionally, NAP provides assistance for losses of floriculture, ornamental nursery, Christmas tree crops, turfgrass sod, seed crops, aquaculture (including ornamental fish), sea oats and sea grass, and industrial crops. The information collected is necessary to determine whether a producer and crop or commodity meet applicable conditions for assistance and to determine compliance with existing rules. Producers must annually: (1) Request NAP coverage by completing an application for coverage and paying a service fee by the CCC-established application closing date; (2) file a current crop-year report of acreage for

the covered crop or commodity; and (3) certify production of each covered crop or commodity. When damage to a covered crop or commodity occurs, producers must file a notice of loss with the local FSA administrative county office within 15 calendar days of occurrence or 15 calendar days of the date damage to the crop or commodity becomes apparent. Producers must also file an application for payment and certification of income with the local FSA County office.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 0.6 hours per response.

Type of Respondents: Producers of commercial crops or other agricultural commodities (except livestock).

Estimated Annual Number of Respondents: 291,500.

Estimated Annual Number of Forms Filed per Respondent: 3.

Estimated Total Number of Responses: 2,167,302.

Estimated Total Annual Burden Hours: 2,143,562.

We are requesting comments on all aspects of this information collection and to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the
