SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of March 19, 2010 (75 FR 13241), FDA published an ANPRM with a 60-day comment period to request data, research, information, and comments on whether restrictions on outdoor advertising of tobacco products are necessary to protect children and adolescents from the harms caused by tobacco use and, if they are, whether the restrictions under consideration (as identified in the ANPRM), or close variations would be

justified, lawful, and appropriate. FDA also solicited data, research, information, and comments on other restrictions on outdoor advertising that, either in addition to or instead of the specific restrictions under consideration, would advance the public health goal of protecting children and adolescents from the harms caused by tobacco use.

The agency has received a request for a 90-day extension of the comment period for the ANPRM. The request conveyed concern that the current 60-day comment period does not allow sufficient time to develop a meaningful response to the ANPRM.

FDA has considered the request and is extending the comment period for the ANPRM for 60 days, until July 19, 2010. The agency believes that a 60-day extension allows adequate time for interested persons to submit comments without significantly delaying a rulemaking on this important issue.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) either electronic or written comments regarding this document. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 13, 2010.

Leslie Kux,

Acting Assistant Commissioner for Policy.
