DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed new information collection. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning a study of the effectiveness of the

National Flood Insurance Program's (NFIP) FloodSmart, a multimedia marketing campaign, aimed at measuring homeowners' awareness, attitudes, and purchasing of flood insurance.

SUPPLEMENTARY INFORMATION: FEMA administers the NFIP created by Congress in 1968 (Pub. L. 90-488 as amended) in response to mounting losses due to floods. Unlike federal disaster assistance, the NFIP does not rely upon appropriated tax dollars to pay claims and operating expenses, but rather it self-supports through premiums collected from flood insurance policies. Communities choosing to participate in the NFIP adopt and enforce floodplain management ordinances to reduce future flood losses in exchange for federally-backed flood insurance made available to property owners in those communities. Based on the correlation between public awareness and purchasing of flood insurance, the NFIP, through the FloodSmart campaign, educates the public on the risks posed by floods and the availability of flood insurance to property owners in participating communities.

Collection of Information

Title: Flood Awareness, Attitude and Usage Study.

Type of Information Collection: New collection.

OMB Number: 1660-NEW7.

Abstract: The Flood Awareness, Attitude and Usage Survey is the evaluative tool of the NFIP's FloodSmart marketing campaign. The study assesses the overall impact of the campaign elements (i.e. advertising recall, media exposure, etc.) on property owners' perceptions and flood insurance. Data findings are combined with additional program data to measure the sale and retention of flood insurance policies in meeting the program's goal of a 5 percent net growth annually. Findings will be used primarily to plan for the subsequent 2005 campaign, and will be combined with additional program metrics for further performance evaluation.

Affected Public: Individuals or households.

Estimated Total Annual Burden Hours: 264 hours.
