

provided by the parties is used by the Board to structure a mediation process that will be productive to the parties and result in a settlement without resort to strike or lockout. The Board has been very successful in resolving labor disputes in the railroad and airline industries. Historically, some 97 percent of all NMB mediation cases have been successfully resolved without interruptions to public service. Since 1980, only slightly more than 1 percent of cases have involved a disruption of service. This success ratio would possibly be reduced if the Board was unable to collect the brief information that it does in the application for mediation services.

B. Application for Investigation of Representation Dispute

Type of Review: Extension.

Title: Application for Investigation of Representation Dispute, OMB Number: 3140-0001.

Frequency: On occasion.

Affected Public: Union Officials, and employees of railroads and airlines.

Reporting and Recordkeeping Hour Burden:

Responses: 68 annually.

Burden Hours: 17.

Abstract: Section 2, Fourth of the Railway Labor Act, 45 U.S.C. 152, Fourth provides that railroad and airline employees shall have the right to organize and bargain collectively, through representatives of their own choosing. When a dispute arises among the employees as to who will be their bargaining representative, the National Mediation Board is required by Section 2, Ninth to investigate the dispute, to determine who is the authorized representative, if any, and to certify such representative to the employer. The Board's duties do not arise until its services have been invoked by a party to the dispute. The Railway Labor Act is silent as to how the invocation of a representation dispute is to be accomplished and the Board has not promulgated regulations requiring any specific vehicle. Nonetheless, 29 CFR 1203.2 provides that requests to investigate representation disputes may be made on printed forms. The application shows the name of description of the craft or class involved, the name of the invoking organization, the name of the organization currently representing the employees, if any, and the estimated number of employees in the craft or class involved. This basic information is essential to the Board in that it provides a short description of the particulars of dispute and the Board can begin

determining what resources will be required to conduct an investigation.

The extension of this form is necessary considering the information is used by the Board in determining such matters as how many staff will be required to conduct an investigation and what other resources must be mobilized to complete our statutory responsibilities. Without this information, the Board would have to delay the commencement of the investigation, which is contrary to the intent of the Railway Labor Act.

Requests for copies of the proposed information collection request may be accessed from www.nmb.gov or should be addressed to Grace Ann Leach, NMB, 1301 K Street NW., Suite 250 E, Washington, DC 20572 or addressed to the e-mail address leach@nmb.gov or faxed to 202-692-5081. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to June D.W. King at 202-692-5010 or via internet address king@nmb.gov. Individuals who use a telecommunications device for the deaf (TDD/TDY) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104-13. This is the second notice; the first notice was published at 67 FR 8562 and no comments were received. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation Applicant Survey.

OMB Approval Number: 3145-0096.

Expiration Date of Approval: August 31, 2002.

Type of Request: Intent to seek approval to extend with revision an information collection for three years.

Proposed Project: The current National Science Foundation Applicant survey has been in use for several years. Data are collected from applicant pools to examine the racial/sexual/disability composition and to determine the source of information about NSF vacancies.

Use of the Information: Analysis of the applicant pools is necessary to determine if NSF's targeted recruitment efforts are reaching groups that are underrepresented in the Agency's workforce and/or to defend the Foundation's practices in discrimination cases.

Burden on the Public: The Foundation estimates about 5,000 responses annually at 3 minutes per response; this computes to approximately 250 hours annually.

Dated: May 3, 2002.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
