

annual burden by 29 hours and the cost burden by \$12,000.

This information collection requires that nationwide narrowband Personal Communications Services (PCS) licensees must, under 47 CFR 24.103, notify the Commission by filing FCC Form 601, no later than 15 days after the end of the five year period following the initial grant of their license, indicating that they plan to satisfy the alternative requirements to provide "substantial service". Also, under section 24.103(f), upon meeting the five and 10 year benchmarks in paragraphs (a), (b), and (c) of this subsection, licensees shall notify the Commission by filing FCC Form 601 and including a map and other supporting documentation that demonstrate the required geographic area coverage, population coverage, or substantial service to the license area within 15 days of the expiration of the relevant period has been met.

The reporting and recordkeeping requirements for this information collection are used to ensure that licensees timely construct systems that are sound, favorable, and substantially provide a level of service above mediocre service, and that those systems serve a significant area of the U.S. population.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance

the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Persons wishing to comment on this information collection should submit comments on or before April 12, 2010. Frequency of Response: On occasion and annual reporting requirements, third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. sections 1, 4(i), 4(j), 201-205, 214, 254, 312(d), 312(f), 403 and 503(b).

Total Annual Burden: 143,150 hours.

Nature and Extent of Confidentiality: The Commission does not request that respondents submit confidential information to the Commission. If the applicants wish to submit information that they believe is confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Need and Uses: The Commission will submit this expiring information collection after this 60 day comment period to the Office of Management and Budget (OMB) in order to obtain the full three year clearance from them. There is no change to the reporting and or third party disclosure requirements. The Commission is reporting a 9,500 hour increase in burden which is due to an increase in the number of respondents based on the actual number of participants in the E-rate program. For the FCC Form 473, the Commission reduced the number of respondents to 5,000 based on the actual number of service providers filing FCC Form 473 in funding year 2008. There was no change in burden for FCC Form 474.

The FCC Form 472 is used to establish a process and procedure for an eligible entity to seek reimbursement from the service provider for the discounts on services paid in full. After receiving an invoice from the service provider, together with a FCC Form 472, the administrator (USAC - Universal Service Administrative Company) is able to verify the eligible service and approved amounts that should be reimbursed and can make the appropriate payment to the service provider. The FCC Form 472 is also used to ensure that each service provider that provided discounted services within the current funding year for which it submits an invoice to USAC and that invoices submitted from service providers for the cost of discounted eligible services do not exceed the amount that has been approved.

FCC Form 473 is used to establish that the participating service provider is eligible to participate in the E-rate program and to confirm that the invoice forms submitted by the service provider are in compliance with the E-rate rules. The FCC Form 473 is also used by USAC to assure that the dollars paid out by the universal service fund go to eligible providers.

FCC Form 474 is to establish the process and procedure for a service provider to seek payment for the discounted costs of services it provided to billed entities for eligible services. After receiving an invoice from the

service provider, together with a FCC Form 474, USAC is able to verify that the eligible and approved amounts can be paid. The FCC Form 474 is also used to ensure that each service provider has provided discount services with the current funding year for which it submits an invoice to USAC and that invoices submitted from service providers for the costs of discounted eligible services do not exceed the amount that has been approved.

All of the requirements contained in this information collection are necessary to implement the congressional mandate for the schools and libraries universal service support program and reimbursement process.
