[Docket No. APHIS–2011–0111]

Notice of Request for Extension of Approval of an Information Collection; Importation of Baby Corn and Baby Carrots From Zambia**AGENCY:** Animal and Plant Health Inspection Service, USDA.**ACTION:** Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations for the importation of baby corn and baby carrots from Zambia.

DATES: We will consider all comments that we receive on or before December 28, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/> #!documentDetail;D=APHIS-2011-0111-0001.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2011–0111, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/>

#!docketDetail;D=APHIS-2011-0111 or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

FOR FURTHER INFORMATION CONTACT: For information on regulations for the importation of baby corn and baby carrots from Zambia, contact Mr. Alex Belano, Senior Import Specialist, Regulatory Coordination and Compliance, PPD, APHIS, 4700 River Road Unit 156, Riverdale, MD 20737; (301) 734–0627. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851–2908.

SUPPLEMENTARY INFORMATION:

Title: Importation of Baby Corn and Baby Carrots From Zambia.

OMB Number: 0579–0284.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–54).

Under these regulations, baby corn and baby carrots from Zambia are subject to certain conditions before entering the United States to prevent the introduction of plant pests into the United States. The regulations include inspection at the port of first arrival and the use of a phytosanitary certificate stating that the commodity was inspected and found free of certain plant pests.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Importers and Zambian national plant protection organization officials and producers.

Estimated annual number of respondents: 1.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 1.

Estimated total annual burden on respondents: 1 hour. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of December 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2011–0114]

Availability of an Environmental Assessment for Field Testing Swine Influenza Vaccine, RNA

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment concerning authorization to ship for the purpose of field testing, and then to field test, an unlicensed Swine Influenza Vaccine, RNA. The environmental assessment, which is based on a risk analysis prepared to assess the risks associated with the field testing of this vaccine, examines the potential effects that field testing this veterinary vaccine could have on the quality of the human environment. Based on the risk analysis, we have reached a preliminary determination that field testing this veterinary vaccine will not have a significant impact on the quality of the human environment, and that an environmental impact statement need not be prepared. We intend to authorize shipment of this vaccine for field testing following the close of the comment period for this notice unless new substantial issues bearing on the effects of this action are brought to our attention. We also intend to issue a U.S. Veterinary Biological Product license for this vaccine, provided the field test data support the conclusions of the environmental assessment and the
