

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- the accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- the quality, utility, and clarity of the information collected; and
- ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Temporary Labor Camps Standard (29 CFR 1910.142). The Agency is requesting an adjustment increase in the number of burden hours from 47 hours to 48 hours. There was an increase in the number of cases from 564 cases to 577. This was due to the increase in the incidents reported of notifiable diseases from 870 per 100,000 to 1,028 per 100,000 people.

The agency will summarize any comments submitted in response to this notice and will include this summary in its request to OMB.
