Abstract: BSEE will use the
information to oversee facility design,

fabrication, installation, and safety
management systems; ensure the safety
of operations, including inspection
programs and incident reporting and
investigations; enforce compliance with
all applicable safety, environmental,
and other laws and regulations through
enforcement actions (such as
noncompliance notices, cessation
orders, and certain lease suspensions);
and oversee decommissioning activities.
These responsibilities include
enforcement provisions under the
existing part 285 subpart D, various
information submittal requirements
under subpart F, as well as provisions
governing activities conducted under an
approved plan, including the design,
construction, operation, and
decommissioning of facilities under
subparts G, H, and I. The requirements
for and standards of review regarding
the Facility Design Report (FDR) and
Facility Fabrication and Installation
Report (FIR) are unchanged: the FDR
and FIR will continue to be evaluated
for consistency with the Construction
and Operations Plan (COP) and
applicable engineering standards.
Decommissioning requirements related
to rights-of-use and easement for
alternate uses of existing OCS facilities
(Alternate Use RUE) have also been
transferred from the existing subpart J to
part 285.

BSEE assumes the responsibility for
ordering a lease or grant suspension
when continued activities pose an
imminent threat of serious or irreparable
harm or damage to natural resources,
life, property, the marine coastal, or
human environment, or sites, structures,
or objects of historical or archaeological
significance. BSEE may also order a
suspension when necessary to comply
with a judicial decree. Under the rule,
BSEE also assumes authority to issue
cessation orders to address
noncompliance on the part of the
grantee or lessee.

The Department does not issue
Suspensions for Alternate Use RUEs
upon the grantee’s request, but only by
order. BOEM will retain authority to
order suspensions required for National
security, and BSEE will assume
authority to order suspensions to
address a threat of harm from continued
operations. Either bureau may order a
suspension when necessary to comply
with a judicial decree. BSEE will order
suspensions when operations are halted
on the existing facility and BSEE
determines continuation of the alternate
use is unsafe or causes undue
interference with the facility.

Part 285 subpart D, Lease and Grant
Administration, includes the authority
to issue notices of noncompliance
