

Plan based on the 2012 NRC TER. In 2020, the DOE provided a revised SRS SDF Performance Assessment to the NRC. After its review, the NRC issued Revision 2 of the TER for the SRS SDF in April 2023. In the 2023 TER, the NRC staff documented its review and concluded that if the DOE Closure Cap design and implementation achieve the DOE expected performance, as described in the 2020 SDF Performance Assessment, then there was reasonable assurance that the DOE disposal actions

at the SDF meet or will meet all the 10 CFR part 61, subpart C, Performance Objectives, including the 10 CFR 61.40 Performance Objective.

In the issued monitoring plan, the NRC staff identified specific areas that it intends to monitor in assessing the DOE compliance with the 10 CFR part 61, subpart C Performance Objectives. The document describes what the NRC staff intends to do in each of those areas, as well as other activities that will be performed to allow a complete

assessment of compliance with the 10 CFR part 61, subpart C, Performance Objectives. In finalizing the monitoring plan, the NRC staff considered comments and input from the NDAA-Covered State of South Carolina.
