

stakeholder groups. The sessions will give members of the public an opportunity to provide their thoughts and ideas on how the Commission should create the OPP to encourage and facilitate public participation. Following a brief introduction from Commission staff, each session will be open to the public for 3–5 minutes of comment per participant. The Commission plans to hold the following sessions:

- Landowners and Communities Affected by Infrastructure Development, Wednesday, March 17, 2021, 1:00 to 2:30 p.m.
- Environmental Justice Communities and Tribal Interests, Monday, March 22, 2021, 1:00 to 2:30 p.m.
- Tribal Governments, Wednesday, March 24, 2021, at 10:00 to 11:30 a.m. (session 1); 1:00 to 2:30 p.m. (session 2).
- Energy Consumers and Consumer Advocates, Thursday, March 25, 2021, 1:00 to 2:30 p.m.

In advance of the listening sessions, participants may wish to consider the issues listed below:

1. Section 319 of the FPA states that the OPP will be administered by a Director. (16 U.S.C. 825q–1(a)(2)(A)). In addition to the Director, how should the office be structured?

2. Should the Commission consider creating an advisory board for OPP? If so, what role would the board serve and who should be on the board?

3. How should the OPP coordinate assistance to persons intervening or participating, or seeking to intervene or participate, in a Commission proceeding?

4. To what extent do you, or the organization you represent, currently interact with the Commission? What has hindered or helped your ability to participate in Commission proceedings?

5. Have you engaged with other governmental entities—such as local, state, and other federal agencies—on matters involving your interests? If so, how did those agencies engage in outreach, and what practices improved your ability to participate in their processes?

6. How should the OPP engage with Tribal Governments, environmental justice communities, energy consumers, landowners, and other members of the public affected by Commission proceedings?

7. Section 319 of the FPA allows the Commission to promulgate rules to offer compensation for attorney fees and other expenses to intervenors and participants who substantially contribute to a significant Commission proceeding if participation otherwise would result in significant financial hardship. (16 U.S.C. 825q–1(b)(2)). How

should the Commission approach the issue of intervenor compensation? What should the OPP's role be with respect to intervenor compensation? How should the Commission establish a budget for and fund intervenor compensation? What lessons can the Commission learn from the administration of similar state intervenor compensation programs?

The sessions will be open for the public to attend, and there is no fee for attendance. Listening sessions will be audio-only. Call-in information details, including preregistration, can be found on the OPP website. Information will also be posted on the Calendar of Events on the Commission's website, www.ferc.gov, prior to the event. The listening sessions will be transcribed and placed into the record approximately one week after the session date.

The listening sessions will be accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov or call toll free 1–866–208–3372 (voice) or 202–502–8659 (TTY), or send a FAX to 202–208–2106 with the required accommodations.

SUPPLEMENTARY INFORMATION:

I. Background Information on the IRIS Program and Systematic Review Protocols

EPA's IRIS Program is a human health assessment program that evaluates

quantitative and qualitative information on effects that may result from exposure to chemicals found in the environment.

Through the IRIS Program, EPA provides high quality science-based human health assessments to support the Agency's regulatory activities and decisions to protect public health.

As part of developing a draft IRIS assessment, EPA presents a methods document, referred to as the protocol, for conducting a chemical-specific systematic review of the available scientific literature. EPA is seeking public comment on components of the protocol including the described strategies for literature searches, criteria for study inclusion or exclusion, considerations for evaluating study methods, information management for extracting data, approaches for synthesis within and across lines of evidence, and methods for derivation of toxicity values. Additionally, key science issues that warrant consideration in this assessment are identified in Section 6. The protocol serves to inform the subsequent development of the draft assessment and is made available to the public. EPA may update the protocol based on the evaluation of the literature, and any updates will be posted to the docket and on the IRIS website.
