SUPPLEMENTARY INFORMATION:

Title: Advisory Committee Candidate Biographical Information Request, DOT F1120.1.

OMB Control Number: 2105-0009.

Type of Request: Extension without change for a currently approved information collection.

Abstract: The collection of information obtained by the Advisory Committee Candidate Biographical Information Request form enables Department officials to review the qualifications of individuals who wish to serve on Department-sponsored advisory committees and the qualifications of persons who have been recommended to serve. The collection provides uniform data for each individual and enables DOT to comply with the Federal Advisory Committee Act (Pub. L. 92-463) (5 U.S.C. App.) which requires that advisory committee membership be balanced.

A number of DOT'S advisory committees were created by statute and have statutory requirements for education, experience, or expertise. The data collection enables DOT to comply with such membership requirements, by providing information from which officials may determine which individuals meet specific qualification standards for particular advisory committees and for particular positions within a committee. In fact, some statutory committees require very narrow and specific expertise for each

position on the committee, which can be ascertained by reviewing the Advisory Committee Candidate Biographical Information Request form.

Finally, the data collection allows officials to retain a file of interested applicants. As vacancies occur on specific advisory committees, the applications and qualifications can be reviewed for possible placement.

In the absence of the data collection, officials would have to contact by telephone or by letter each person who expressed an interest or who was recommended for an advisory committee position to determine his/her interest, education, experience, or expertise. This would be a more time-consuming and costly data collection effort which would have to be repeated if the individual were to be considered at a later time for vacancies on other advisory committees.

Respondents: Individuals who have contacted DOT to indicate an interest in appointment to an advisory committee and individuals who have been recommended for membership on an advisory committee. Only one collection is expected per individual.

Estimated Number of Respondents per year: 100.

Total Burden: 35 hours.

This information collection is available for inspection at the Office of the Executive Secretariat, Room 10205, Office of the Secretary, DOT, at the above address.

Comments are Invited on: (a) Whether the continued collection of information is necessary for the proper performance of the functions of the Department, (b) the accuracy of the Department's estimate of the burden of the current information collection, (c) ways to enhance the quality, utility, and clarity of the information being collected and (d) ways to minimize the burden of the collection of information on respondents including the use of automated collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
