The panel recommended short-term risk reduction measures such as maintaining the current reservoir pool restriction elevation of 2,585.5 feet, 20 feet below normal pool. The panel also recommended long-term risk reduction measures including completion of on-going studies of major rehabilitation of the auxiliary dam and evaluation of the main dam's overall earthquake performance.

2. *Remediation Alternatives.* The draft EIS will address an array of remediation alternatives that are necessary to prevent loss of life, extensive downstream damage, functional loss of the project, and the loss of all project benefits. The exact nature and extent of the remediation alternatives will be determined based on the results of on-going geotechnical and engineering studies, public and agency input during the scoping period, and preparation of the draft EIS.

3. *Issues To Be Addressed.* The draft EIS will address environmental issues concerning the remediation alternatives proposed. Issues will be identified based on public input during the scoping process and during the preparation of the draft EIS. Issues initially identified as potentially significant include, but are not limited to: Soils and seismicity, hydrology and water quality, noise and vibration, air quality, socioeconomic, water supply, land use, recreation, visual and aesthetic resources, traffic and transportation, historical and cultural resources, vegetation and wildlife, special status species, and fisheries.

4. *Public Involvement.* Public scoping meetings will be held in May 2010 at specific locations to be announced within the local Isabella Lake DSAP Project area and in Bakersfield, California. The purpose of the public scoping meetings will be to present information to the public regarding the array of remediation alternatives proposed that may be addressed in the draft EIS, receive public comments, and solicit input regarding environmental issues of concern to the public. These meetings are intended to initiate the process to involve concerned individuals, and local, State, and Federal agencies. The public scoping meeting place, date, and time will be advertised in advance in local newspapers, and meeting announcement letters will be sent to interested parties. Written comments

may also be submitted via Web site or mail to (see **ADDRESSES**).

5. *Availability of the Draft EIS.* The Corps intends to issue the draft EIS in May 2011. The Corps will announce availability of the draft EIS in the **Federal Register** and other media, and will provide the public, organizations, and agencies with an opportunity to submit comments to be addressed in the final EIS.
