

2008 AWTS. The sample will provide, with measurable reliability, statistics on the subjects specified above. We will furnish report forms to the firms covered by this survey and will require their submission within 30 days after receipt by mail, fax, or over the Internet, using the "Census Taker" option. "Census Taker" is a software system that provides a highly secure and user-friendly means of collecting survey and census information.

The Census Bureau is authorized to take surveys that are necessary to furnish current data on the subject covered by the censuses authorized by Title 13, United States Code (U.S.C.), Sections 182, 224, and 225. This survey will provide continuing and timely national statistics data on wholesale trade for the period between economic censuses. For 2008, the survey will include separate samples for wholesale distributors, MSBOs, and AGBRs' companies in the wholesale sector. The data collected in this survey will be similar and within the general scope and nature of those in the economic census. The data collected will provide a sound statistical basis for the formation of policy by various government agencies. These data also apply to a variety of public and business needs.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, Title 44, U.S.C., Chapter 35, OMB approved this survey under OMB control number 0607-0195.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.

Dated: October 28, 2008.
