The data is used by the public to assess money expended and time allotted to a political candidate and to ensure that equal access was afforded to other qualified candidates.

Title: Section 73.1942 Candidate rates.

Form No.: n/a.

Type of Review: Extension of currently approved collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 11,878.

Estimated Hours Per Response: 0.5 hours per disclosure of lowest unit charge; 20 hours for calculation of lowest unit charge; 2 hours for review of records.

Frequency of Response: On occasion.

Cost to Respondents: \$0.

Estimated Total Annual Burden: 671,107 hours.

Needs and Uses: Section 315(b) of the Communications Act directs broadcast stations to charge political candidates the "lowest unit charge of the station" for the same class and amount of time for the same period, during the 45 days preceding a primary or runoff election and the 60 days preceding a general or special election.

Section 73.1942 requires broadcast licensees to disclose any station practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time (immediately preemptible, preemptible with notice, fixed, fire sale, and make good). Section 73.1942 also requires licensees to calculate the lowest unit charge. Stations are also required to review their advertising records throughout the election period to determine whether compliance with this section requires that candidates receive rebates or credits.

The disclosures would assure candidates that they are receiving the same lowest unit charge as other advertisers.

Title: Home Wiring Provisions.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit.

Number of Respondents: 30,500

respondents; 253,510 responses.

Estimated Time Per Response: .50-5 hours.

Frequency of Response:

Recordkeeping requirement, on occasion and annual reporting requirements.

Total Annual Burden: 46,114 hours.

Title: Section 90.651, Supplemental Reports Required of Licensees Authorized under this Subpart.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, state, local or tribal government.

Number of Respondents: 16,408.

Estimated Time Per Response: .166 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 2,724 hours.

Total Annual Cost: N/A.

Needs and Uses: This rule section revised the timeframe for reporting the number of mobile units placed in operation from eight months to 12 months. The radio facilities addressed in this subpart of the rules are allocated on and governed by regulations designed to award facilities on a need basis determined by the number of mobile units served by each base station. This is necessary to avoid

frequency hoarding by applicants. The various subparagraphs of this rule apply to different categories of licensees and define exactly what reports are required of each category. The Commission uses the information to maintain an accurate database of frequency users.
