

control practices and technologies to reduce or eliminate PFAS in discharges. The EPA will use these characterization data to estimate current pollutant mass loads and achievable load reductions for available technologies for the industry and to determine if the ELGs warrant revision. Additional objectives of the questionnaire and sampling will be to confirm the current population of textile mills, confirm which mills still use PFAS in their processes, as well as gather facility-specific information and data relevant to generation and discharge of PFAS-containing wastewater by the industry.

Confidential Business Information (CBI) may be collected. In accordance with 40 CFR part 2, subpart B, section 2.203, the survey informs respondents of their right to claim information as confidential. Each survey provides instructions for claiming confidentiality and informs respondents of the terms and rules governing the protection of CBI under the Clean Water Act and 40 CFR 2.203(b). Survey respondents are requested to mark any claimed confidential responses as CBI. EPA and its contractors will follow EAD's existing procedures to protect data labeled as CBI.

Form Numbers: None.

Respondents/affected entities: Up to 2,200 textile mills in the U.S. will receive the questionnaire and no more than 20 facilities will be asked to conduct specific wastewater sampling.

Respondent's obligation to respond: Mandatory (Clean Water Act Section 308) (citing authority).

Estimated number of respondents: Up to 2,200 (total).

Frequency of response: One-time data collection.

Total estimated respondent burden: 30,008 hours. Burden is defined at 5 CFR 1320.03(b).

Total estimated respondent cost: \$1,339,982 one-time cost.

Changes in Estimates: This is a new data collection request and is a one-time temporary increase to the agency's burden.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. Although this action may be of particular interest to those persons who conduct or sponsor research on pesticides, the Agency has not

attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What action is the Agency taking?

Under section 5 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), 7 U.S.C. 136c, EPA can allow manufacturers to field test pesticides under development. Manufacturers are required to obtain an EUP before testing new pesticides or new uses of pesticides if they conduct experimental field tests on 10 acres or more of land or one acre or more of water.

Pursuant to 40 CFR 172.11(a), the Agency has determined that the following EUP application may be of regional and national significance, and therefore is seeking public comment on the EUP application:
