SUPPLEMENTARY INFORMATION: The National Environmental Policy Act (NEPA) (Pub. L. 91-190) requires that the Federal government examine the impact of its actions on the environment, look at potential alternatives to that action, inform both decision-makers and the public of those impacts through a transparent process, and pursue mitigation if necessary. Environmental and Historic Preservation (EHP) compliance refers to the process by which the Federal government ensures that projects financed through Federal grant funding are compliant with NEPA and existing laws and regulations related to environment and historic preservation. Compliance under NEPA is required whenever Federal funds are expended as listed in Sec. 102(D) of the National Environmental Policy Act (42 U.S.C. 4332(D)). A NEPA compliance review process for FEMA grant programs incorporates compliance with Section 106 of the National Historic Preservation Act (NHPA) (Pub. L. 102-575, 16 U.S.C. 470f) which requires that a Federal official, having jurisdiction over awarding of Federal funds, will have to take into consideration the effect that the actions undertaken as a result of the awarded funds have on any district, site, building, structure, or object that is included in or eligible for inclusion in the National Register.
