BILLING CODE 4410-12-P

DEPARTMENT OF JUSTICE

[Docket No. OAG192]

Granting of Relief; Federal Firearms Privileges

AGENCY: Department of Justice.

ACTION: Notice of granting of restoration of Federal firearms privileges.

SUMMARY: The Attorney General has granted relief from disabilities imposed by Federal laws with respect to certain individuals regarding the acquisition, receipt, transfer, shipment, transportation, or possession of firearms or ammunition.

SUPPLEMENTARY INFORMATION: The Attorney General is responsible for enforcing the provisions of the Gun Control Act of 1968 (GCA), 18 U.S.C. Chapter 44. Section 922(g) of the GCA prohibits certain persons from shipping or transporting “in interstate or foreign commerce, or possess[ing] in or affecting commerce, any firearm or ammunition; or to receiv[ing] any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.” Section 925(c) of the GCA provides that a person who is prohibited under section 922(g) may make application to the Attorney General to remove the firearms disabilities “if it is established to [the Attorney General’s] . . . satisfaction that the circumstances regarding the disability, and the applicant’s record and reputation, are such that the applicant will not be likely to act in a manner dangerous to public safety and that the granting of the relief would not

be contrary to the public interest.”

Section 925(c) also provides that “[w]henver the Attorney General grants relief to any person pursuant to this section [s]he shall promptly publish in the **Federal Register** notice of such action, together with the reasons therefor.”

The Attorney General has reviewed all the relevant facts for each individual listed below, including the materials that each individual submitted seeking either a pardon or relief from federal firearms disabilities, and it is established to her satisfaction that each individual will not be likely to act in a manner dangerous to public safety and that the granting of the relief to each individual would not be contrary to the public interest. Accordingly, on March 31, 2025, the Attorney General granted relief from federal firearms disabilities to these individuals pursuant to section 925(c):

Judy Broach
 Danny Preston Conrad
 Timothy Lyn Dunham
 Mel Gibson
 Jessica Lynn Jacobson
 Joseph Klecko
 Wayne L. Mertz
 Charles E. Moehring, Jr.
 Patrick Lynn Morgan
 Ronald Joseph Willkomm

Dated: April 18, 2025.

Todd Blanche,

Deputy Attorney General.

BILLING CODE 4410-BB-P

NATIONAL SCIENCE FOUNDATION

Request for Information on the Development of a 2025 National Artificial Intelligence (AI) Research and Development (R&D) Strategic Plan

AGENCY: Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO), National Science Foundation.

ACTION: Request for Information.

SUMMARY: On behalf of the Office of Science and Technology Policy (OSTP), the Networking and Information Technology Research and Development

(NITRD) National Coordination Office (NCO) welcomes input from all interested parties on how the previous administration’s National Artificial Intelligence Research and Development Strategic Plan (2023 Update) can be rewritten so that the United States can secure its position as the unrivaled world leader in artificial intelligence by performing R&D to accelerate AI-driven innovation, enhance U.S. economic and national security, promote human flourishing, and maintain the United States’ dominance in AI while focusing on the Federal government’s unique role in AI research and development (R&D) over the next 3 to 5 years. Through this Request for Information (RFI), the NITRD NCO encourages the contribution of ideas from the public, including AI researchers, industry leaders, and other stakeholders directly engaged in or affected by AI R&D. Responses previously submitted to the RFI on the Development of an AI Action Plan will also be considered in updating the National AI R&D Strategic Plan.

DATES: Interested persons are invited to submit comments on or before 11:59 p.m. (ET) on May 29, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. NSF-2025-OGC-0001, at <https://www.regulations.gov>. For comments submitted at [Regulations.gov](https://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](https://www.regulations.gov).

Email: Docket ID No. NSF-2025-OGC-0001.

Instructions: Response to this RFI is voluntary. Each individual or institution is requested to submit only one response. Submissions should ideally be 2 pages but not exceed 10 pages in 12 point or larger font, with a page number provided on each page. Responses must include the name of the person(s) or organization(s) filing the comment and the following statement: “This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the 2025 National AI R&D Strategic Plan and associated documents without

attribution.” Responses to this RFI are subject to release under the Freedom of Information Act and may be posted online at <https://www.nitrd.gov/>. Therefore, we request that no business proprietary information, copyrighted information, or sensitive personally identifiable information be submitted as part of your response to this RFI.

In accordance with FAR 15.202(3), responses to this notice are not offers and cannot be accepted by the Government to form a binding contract. Responders are solely responsible for all expenses associated with responding to this RFI.

FOR FURTHER INFORMATION CONTACT:

Faisal D’Souza at ostp-ai-rd-sp-rfi@nitrd.gov or (202) 459–9674. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday, except for U.S. Federal Government holidays.

SUPPLEMENTARY INFORMATION: The Federal government plays a critical role in supporting AI R&D in areas where private sector investment is insufficient or where national interests require government leadership. Many foundational breakthroughs in AI, such as neural networks and reinforcement learning, originated from government-funded research before becoming commercially viable. Industry tends to focus on near-term applications that promise immediate returns, while critical areas such as AI for national security, public infrastructure resilience, and scientific discovery often require long-term investment with uncertain commercial payoffs. By prioritizing areas of foundational research, the government plays a vital role in maintaining America’s technological leadership and ensuring that AI development serves broad public interests rather than being driven solely by near-term market forces.

On January 23, 2025, President Trump signed Executive Order 14179 (Removing Barriers to American Leadership in Artificial Intelligence) to establish U.S. policy for sustaining and enhancing America’s AI dominance in order to promote human flourishing, economic competitiveness, and national security. This Order directs the development of an AI Action Plan to advance America’s AI leadership, in a process led by the Assistant to the President for Science and Technology, the White House AI and Crypto Czar, and the National Security Advisor. The 2025 National AI R&D Strategic Plan will be aligned with the AI Action Plan.

The 2025 National AI R&D Strategic Plan will identify the Federal strategic priorities for AI research and development, with particular attention on areas that industry is unlikely to address. These areas might need prioritization by government because they serve national interests but may not provide immediate commercial returns, making them less attractive for private-sector funding. Respondents to this RFI are encouraged to articulate research needs and development challenges in AI that the Federal government should prioritize over the next 3 to 5 years, along with ideas for novel mechanisms for research partnerships with industry and/or academia.

Examples of areas in which Federal AI R&D investments could be prioritized may include, but are not limited to: fundamental advances in AI algorithms, architectures, mathematical foundations and computing paradigms that may not have immediate commercial applications, aiming at maintaining U.S. AI leadership into the future; high-risk, high-reward AI research relevant for domains critical to future U.S. competitiveness, including human-AI interaction; research on next-generation AI hardware and architectures beyond deep learning; AI research for accelerating fundamental scientific discovery and technological breakthroughs in areas where private-sector investment is insufficient; advances in AI systems capable of reasoning, adaptability, and robustness in dynamic environments; research into AI standards, security and reliability; AI research for national security and critical infrastructure; advances in agentic and physically embodied AI with strategic competitiveness implications; infrastructure support for the AI research and development community; advances in AI applications in cybersecurity and cyberspace operations beyond those of commercial use; advances in AI for public sector and government applications; and research on AI systems and education supporting American workers and improving workforce productivity. Many other research areas could also be relevant.

Public input in response to this RFI, as well as responses previously submitted to the RFI on the Development of an AI Action Plan (90 FR 9088), will inform OSTP and NITRD NCO in developing the 2025 National Artificial Intelligence Research and Development Strategic Plan to reflect the Administration’s commitment to fostering an environment where AI can thrive as a driver of economic growth,

technological advancement, human flourishing, and national security.

Submitted by the National Science Foundation in support of the Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO) on April 24, 2025.

BILLING CODE 7555–01–P

NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting

TIME AND DATE: 9:30 a.m. ET, May 20, 2025.

PLACE: NTSB Conference Center, 429 L’Enfant Plaza SW, Washington, DC 20594.

STATUS: The *one* item is open to the public.

MATTER TO BE CONSIDERED:

74011 *Highway Investigation Report—Collision of Motorcoach with Combination Vehicles Parked Along Exit Ramp to I-70 Rest Area, Highland, IL, July 12, 2023*

CONTACT PERSON FOR MORE INFORMATION:

Candi Bing at (202) 590–8384 or by email at bingc@ntsb.gov.

Media Information Contact: Sara Sulick by email at sara.sulick@ntsb.gov or at (202) 314–6100.

The public may view it through a live or archived webcast by accessing a link under “Upcoming Events” on the NTSB home page at www.ntsb.gov.

Schedule updates, including weather-related cancellations, are also available at www.ntsb.gov.

The National Transportation Safety Board is holding this meeting under the Government in the Sunshine Act, 5 U.S.C. 552(b).

Dated: April 25, 2025.

LaSean R. McCray,

Alternate Federal Register Liaison Officer.
