

findings to support guidance or recommendations to the industry, or regulatory action. Of note, FRA is seeking to collect data on train length on an ongoing basis, as opposed to this being a one-time study. FRA will use the collected data to establish an initial baseline for the length of trains operating within the U.S. rail system as well as to determine if train lengths are changing over time. FRA may also use the collected data in future analyses to better understand the impact of train length on safety: *e.g.*, to determine whether trains of certain lengths are disproportionately involved in certain type of accidents/incidents or other undesired events such as loss of communications or train stalling.

FRA has incorporated several measures to minimize respondents' paperwork burden in this proposed collection. For example, to avoid duplicating efforts, FRA is not asking railroads to provide train length information for any FRA-reportable accident or incident for which a Form FRA F 6180.54 is filed. Instead, for any train involved in an accident for which a Form FRA F 6180.54 is filed, FRA will review train length data collected on that form and will not seek to collect the same data proposed in this collection.

As provided by Congress to the Secretary of Transportation, and as delegated, FRA has broad statutory authority to oversee matters related to rail safety.¹⁵ As noted in the Safety Advisory, the greater operational complexities associated with longer trains necessitate that railroads take appropriate safety measures to manage their potentially more complex in-train forces. This proposed collection is a component of FRA's ongoing research to closely monitor and analyze the impact of train length on rail safety.

Type of Request: Approval of a new collection of information.

Affected Public: Businesses.

Form(s): Form FRA F 6180.277.

Respondent Universe: Class I freight railroads.

Frequency of Submission: Monthly/recurring.

Total Estimated Annual Responses: 72 reports.

Total Estimated Annual Burden: 576 hours.

Total Estimated Annual Burden Hour Dollar Cost Equivalent: \$49,496.

FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information that does not display a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Allison Ishihara Fultz,
Chief Counsel.
