

bridge to remain in the closed position for 70 days.

DATES: This deviation is effective from April 30, 2011 through July 8, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG–2011–0202 and are available online at <http://www.regulations.gov>, inserting USCG–2011–0202 in the “Keyword” and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Mr. Joe Arca, Project Officer, First Coast Guard District, joe.m.arca@uscg.mil, or telephone (212) 668–7165. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION: The 103rd Street (Wards Island) Pedestrian Bridge, across the Harlem River, mile 0.0, at New York City, New York, has a vertical clearance in the closed position of 55 feet at mean high water and 60 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.789.

The owner of the bridge, New York City Department of Transportation, has requested a temporary deviation from the regulations to complete rehabilitation of the bridge which was begun in January 2011.

The Coast Guard published a temporary deviation for the 103rd Street (Wards Island) Pedestrian Bridge on January 20, 2011, (76 FR 3516), authorizing the bridge to remain in the closed position effective from January 10, 2011 through April 29, 2011.

The bridge owner has requested a second temporary deviation through July 8, 2011 in order to continue rehabilitation past April 29, 2011, due to unanticipated additional repair work which was discovered.

In addition, containment scaffolding located under the lift span will reduce the vertical clearance by approximately four feet while the scaffolding is in place. Most vessel traffic that uses this waterway can fit under the draw without requiring bridge openings.

Under this temporary deviation the 103rd Street (Wards Island) Pedestrian Bridge may remain in the closed position from April 30, 2011 through July 8, 2011. Vessels that can pass under

the bridge in the closed position may do so at any time.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 31, 2011.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

33 CFR Part 117

[Docket No. USCG–2011–0203]

Drawbridge Operation Regulations; Apponagansett River, Dartmouth, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Padanaram Bridge at mile 1.0 across the Apponagansett River, at Dartmouth, Massachusetts. The deviation is necessary to facilitate electrical maintenance. This deviation allows the bridge to remain in the closed position for five days.

DATES: This deviation is effective from April 18, 2011 through April 22, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG–2011–0203 and are available online at <http://www.regulations.gov>, inserting USCG–2011–0203 in the “Keyword” and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Mr. John McDonald, Project Officer, First Coast Guard District, john.w.mcdonald@uscg.mil, or telephone (617) 223–8364. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION: The Padanaram Bridge, across the Apponagansett River, mile 1.0, at Dartmouth, Massachusetts, has a vertical clearance in the closed position of 9 feet at mean high water and 12 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.587.

The owner of the bridge, the Town of Dartmouth, requested a temporary deviation from the regulations to facilitate electrical repairs, motor replacement, at the bridge.

Under this temporary deviation the Padanaram Bridge may remain in the closed position from April 18, 2011 through April 22, 2011. Vessels that can pass under the bridge in the closed position may do so at any time.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 29, 2011.

Coast Guard

33 CFR Part 117

[Docket No. USCG–2011–0095]

Drawbridge Operation Regulation; Calcasieu River, Westlake, LA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Union Pacific Railroad swing bridge across the Calcasieu River, mile 36.4, at Westlake, Calcasieu Parish, Louisiana. The deviation is necessary to perform maintenance and updates to the bridge's operating system. This deviation allows the bridge to remain closed to navigation during night operations on two separate occasions.

DATES: This deviation is effective from 11 p.m. on Sunday, April 17, 2011, through 5 a.m. on Monday, April 25, 2011, and from 11 p.m. on Sunday, May 8, 2011, through 5 a.m. on Tuesday, May 31, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG–2011–0095 and are available online by going to <http://www.regulations.gov>, inserting USCG–2011–0095 in the “Keyword” box and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Kay Wade, Bridge Administration Branch, Coast Guard; telephone 504–671–2128, e-mail Kay.B.Wade@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION: The Union Pacific Railroad has requested a temporary deviation from the operating schedule for the swing span bridge across the Calcasieu River, mile 36.4, at Westlake, Calcasieu Parish, Louisiana. The swing span bridge has a vertical clearance of 1.07 feet above mean high water, elevation 3.56 feet Mean Gulf Level in the closed-to-navigation position.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the swing span of the bridge to remain closed to navigation from 11 p.m. Sunday, April 17, 2011, through 5 a.m. on Monday, April 25, 2011, and from 11 p.m. on Sunday, May 8, 2011, through 5 a.m. on Tuesday, May 31, 2011.

The closure is necessary in order to perform maintenance and updates to the bridge’s operating system while minimizing the exposure of personnel to hazards associated with performing work of a complicated nature in the dark. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway is minimal at the bridge site. The very limited commercial traffic at the bridge site consists of commercial tugs with tows. There are only two companies that transit above the bridge. The bridge will be able to open for emergencies if necessary. There are no alternate

waterway routes available. Based on experience and coordination with waterway users, it has been determined that this closure will not have a significant effect on vessels that use the waterway.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 31, 2011.

David M. Frank,

Bridge Administrator.

BILLING CODE 9110–04–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 101126522–0640–02]

RIN 0648–XA362

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in the West Yakutat District of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in the West Yakutat District of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2011 total allowable catch (TAC) of pollock in the West Yakutat District of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 5, 2011, through 2400 hrs, A.l.t., December 31, 2011.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2011 TAC of pollock in the West Yakutat District of the GOA is 2,339

metric tons (mt) as established by the final 2011 and 2012 harvest specifications for groundfish of the GOA (76 FR 11111, March 1, 2011).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the 2011 TAC of pollock in the West Yakutat District of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,239 mt, and is setting aside the remaining 100 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in the West Yakutat District of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pollock in the West Yakutat District of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of April 4, 2011.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 6, 2011.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
