(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

SUPPLEMENTARY INFORMATION: Alaska's Bristol Bay watershed provides habitat for one of the largest wild salmon populations in the world. In February 2011, EPA began a scientific assessment of the Bristol Bay watershed to understand how large-scale mining activities might affect water quality and habitat. EPA will focus primarily on the Kvichak and Nushagak River drainages, the primary areas in the watershed open to large-scale development.

This assessment was launched in response to concerns from federally recognized tribes and others, who petitioned the agency to evaluate potential impacts of large-scale mining on aquatic resources. The assessment will evaluate the potential for large-scale mining development to have adverse effects on salmon and resident fish populations of the Kvichak and Nushagak River drainages, and if these

effects are likely to affect wildlife and human populations in the region. Additional information describing the assessment, progress to date, and status can be found at: www.epa.gov/region10/bristolbay.

Expertise Sought: EPA is seeking nominations of experts to serve on the external peer review panel for the Bristol Bay Assessment. Nominees should possess, and demonstrate, background knowledge and experience in one or more of the following areas: (1) Metals (particularly porphyry copper) mining, (2) salmon fisheries biology, (3) surface, subsurface, or watershed hydrology, (4) aquatic ecology, (5) biogeochemistry, (6) seismology, (7) ecotoxicology, (8) wildlife ecology, and/or (9) indigenous Alaskan cultures.

Selection Criteria: Selection criteria for members of the external review panel include the following: (1) Demonstrated expertise through relevant peer reviewed publications; (2) professional accomplishments, and recognition by professional societies; (3) demonstrated ability to work constructively and effectively in a committee setting; (4) absence of financial conflicts of interest; (5) no actual conflicts of interest or the appearance of bias; (6) willingness to commit adequate time for the thorough review of the assessment report commencing in late April 2012; and (7) availability to participate in-person in a peer review panel meeting in Anchorage, Alaska during August 2012.

Nominee Information: Any interested person or organization may nominate qualified persons to be considered for appointment to the peer review panel. Self-nominations will also be accepted. Nominations may be submitted either online using the following URL: <http://www.versar.com/epa/bristolbaynominationform.html> or by mail to the EPA contractor listed in the **ADDRESSES** section. The following information should be provided on the nomination form/mail-in documentation: (1) Contact information for the person making the nomination; (2) contact information for the nominee; (3) the disciplinary and specific areas of expertise of the nominee; (4) the nominee's curriculum vita; (5) and a biographical sketch of the nominee indicating current position, educational background, past and current research activities, and recent service on other advisory committees or professional organizations. Persons having questions about the nomination procedures should contact the designated contact above.

Notification of nominees: EPA's contractor, Versar, Inc., will notify candidates of selection or non-selection. The Contractor may add additional experts to the list of nominees to develop a balanced panel representing the expertise needed to fully evaluate EPA's draft assessment report. After the peer review panel has been finalized, a list of panel members will be posted on the project Web site at www.epa.gov/region10/bristolbay. Compensation of non-federal peer review panel members will be provided by EPA's contractor.
