FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1212; FRS 17489]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before April 27, 2021. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1212.

Title: SDARS Political Broadcasting Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 1 respondent; 1 response.

Estimated Time per Response: 10 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirements; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority which covers this information collection is contained in 47 U.S.C. 309(a) and 307(a) of the Communications Act of 1934, as amended.

Total Annual Burden: 20 hours.

Total Annual Cost: No cost.

Nature and Extent of Confidentiality: Although the Commission does not believe that any confidential information will need to be disclosed in order to comply with the information collection requirements, applicants are free to request that materials or information submitted to the Commission be withheld from public inspection. (See 47 CFR 0.459 of the Commission's Rules.)

Privacy Impact Assessment: No impact(s).

Needs and Uses: In 1997, the Commission imposed political broadcasting requirements on Satellite Digital Audio Broadcasting Service ("SDARS") licensees. See Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band, 12 FCC Rcd 5754, 5792, para. 92 (1997) ("1997 SDARS Order"), FCC 97-70. The Commission stated that SDARS licensees should comply with the same substantive political debate provisions as broadcasters: The federal candidate access provision (47 U.S.C. Section 312(a)(7)) and the equal opportunities provision (47 U.S.C. Section 315). The 1997 SDARS Order imposes the following requirements on SDARS licensees:

Lowest Unit Charge: Similar to broadcasters, SDARS licensees must

disclose any practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time. SDARS licensees must also calculate the lowest unit charge and are required to review their advertising records throughout the election period to determine whether compliance with this rule section requires that candidates receive rebates or credits. See 47 CFR Section 73.1942.

Political File: Similar to broadcasters, SDARS licensees must also keep and permit public inspection of a complete record (political file) of all requests for SDARS origination time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the system of such requests, and the charges made, if any, if the request is granted. The disposition includes the schedule of time purchased, when the spots actually aired, the rates charged, and the classes of time purchased. Also, when free time is provided for use by or on behalf of candidates, a record of the free time provided is to be placed in the political file as soon as possible and maintained for a period of two years. See 47 CFR 73.1943.

In 2016, the Commission expanded the requirement that public inspection files be posted to the FCC-hosted online public file database to SDARS licensees, among other entities. These public files include the political files.

On November 18, 2011, the Commission released the *USF/ICC Transformation Order* (FCC 11-161) in which it comprehensively reformed and modernized the universal service and intercarrier compensation systems to ensure that robust, affordable voice and broadband service, both fixed and mobile, are available to Americans throughout the nation. In the *USF/ICC Transformation Order*, the Commission, among other things, adopted a requirement that all ETCs offer broadband service in their supported area that meets certain basic performance requirements and report regularly on associated performance measures as a condition of receiving federal high-cost universal service support.

On October 27, 2020, the Commission adopted the *5G Fund Report and Order* (FCC 20-150) in which it, among other things, helped to complete the reform of the high-cost program begun in the *USF/ICC Transformation Order* by adopting additional public interest obligations and performance requirements for legacy high-cost support recipients, whose broadband-specific public interest obligations for mobile wireless services were not previously detailed. The public interest obligations adopted in the *5G Fund Report and Order* for each competitive eligible telecommunications carrier (ETC) receiving legacy high-cost support for mobile wireless services require that such a carrier (1) use an increasing percentage of its legacy support toward the deployment, maintenance, and operation of voice and broadband networks that support 5G meeting the adopted performance requirements within its subsidized service area(s), and (2) meet specific 5G broadband service deployment coverage requirements and service deployment milestone deadlines that take into consideration the amount of legacy support the carrier receives. With respect to the requirement to use an increasing percentage of its legacy

support toward the deployment, maintenance, and operation of voice and broadband networks that support 5G, the rules adopted in the *5G Fund Report and Order* specify that each legacy support recipient must use at least one-third of the legacy support it receives in 2021, at least two-thirds of the legacy support it receives in 2022, and all of the legacy support in 2023 and beyond for these purposes.

To address a concern that budgets and deployment plans for 2021 are largely complete, which could make it difficult for some competitive ETCs to achieve the 2021 support usage requirement, the Commission adopted a rule that affords such competitive ETCs the flexibility to use less than one-third of their legacy support in 2021 and make up for any shortfall in 2021 by proportionally increasing the requirement in 2022 (above the two-thirds of its support the competitive ETC is required to spend on 5G in that year). See 47 CFR 54.322(c)(4). In order to take advantage of this flexibility, a competitive ETC receiving legacy support for mobile wireless services must submit a certification in which it (1) provides information regarding the service area(s) for which it and any affiliated mobile competitive ETC(s) receive legacy support and the annual amount of support they receive in each area; (2) indicates the total amount of legacy high-cost support to be spent on the deployment, maintenance, and operation of mobile networks that provide 5G service in calendar year 2021 across the identified service areas; and (3) certifies that any 2021 spending shortfall will be made up in 2022. Only those competitive ETCs receiving legacy high-cost support for mobile wireless services that wish to avail themselves of the flexibility concerning their 2021 and 2022 legacy high-cost support usage requirements will be required to respond to this information collection.

The certification will be used by the Commission to identify how much a competitive ETC that chooses to avail itself of the flexibility concerning its 2021 and 2022 legacy high-cost support usage requirements will spend on 5G in 2021 and the spending shortfall it must make up in 2022, and to confirm the competitive ETC's commitment to make up its 2021 spending shortfall in 2022 in accordance with its certification and the Commission's rules.
