**SUMMARY:** The Pipeline and Hazardous Materials Safety Administration (PHMSA) and the National Association of Pipeline Safety Representatives are hosting a Government/Industry Pipeline Research and Development (R&D) Forum. The R&D Forums are held periodically to generate a National research agenda that will foster solutions for the many challenges with pipeline safety and with protecting the environment.

- Identify key pipeline technical challenges facing industry and government;
- Disseminate information on current research efforts; and
- Identify new research that can help to meet known challenges.

The Forum will be structured with a combination of general sessions to provide introductory, panel, and summary presentations, and concurrent working group sessions.
