

issuer must disclose in the table the initial rate. The initial rate must be in at least 18-point type unless the issuer also discloses in the table the permanently applicable rate. The issuer may disclose in the table the permanently applicable rate that would otherwise apply if the issuer also discloses the time period during which the initial rate will remain in effect. In that case, the permanently applicable rate must be in at least 18-point type.

7. Increased penalty rates. If the initial rate may increase upon the occurrence of one or more specific events, such as a late payment or an extension of credit that exceeds the credit limit, the card issuer must disclose in the table the initial rate and the increased penalty rate that may apply. If the penalty rate is based on an index and an increased margin, the issuer must also disclose in the table the index and the margin. The issuer must also disclose the specific event or events that may result in imposing the increased rate, such as "22% APR, if 60 days late." If the penalty rate cannot be determined at the time disclosures are given, the issuer must provide an explanation of the specific event or events that may result in imposing an increased rate. In describing the specific event or events that may result in an increased rate, issuers need not be as detailed as for the disclosures required under § 226.6(a)(2). [Alternatively] For issuers using a tabular format, the specific event or events must be located outside of the table and an asterisk or other means shall be used to direct the consumer to the additional information. [if the conditions are noted with an asterisk or other means that direct the consumer to the explanation.] At its option, the issuer may include in the explanation of the penalty rate [disclose] the period for which the increased rate will remain in effect, such as "until you make three timely payments." The issuer need not disclose an increased rate that is imposed when credit privileges are permanently terminated.

Appendices G and H—Open-End and Closed-End Model Forms and Clauses

1. Permissible changes. * * * (But see comment G-5 for special rules concerning certain disclosures required under § 226.5a for credit and charge card applications and solicitations). * * *

Appendix G—Open-End Model Forms and Clauses

* * * * *

5. Models G-10(A) through G-10(C) and Sample G-10(D). Models G-10(A) and G-10(B) illustrate the tabular format for providing the disclosures required under § 226.5a for applications and solicitations for credit cards other than charge cards. Model G-10(A) illustrates the permissible inclusion in the tabular format of all of the disclosures. Model G-10(B) contains only the disclosures required to be included in the table, while the three additional disclosures are shown outside of the table. The two forms also illustrate two different levels of detail in disclosing the grace period, and different arrangements of the disclosures. Model G-

10(C) illustrates the tabular format disclosure for charge card applications and solicitations and reflects all of the disclosures in the table. Sample G-10(D) illustrates an account with a lower introductory rate and a penalty rate. Except as otherwise permitted, disclosures must be substantially similar in sequence and format to model forms G-10(A), (B), and (C). The disclosures may, however, be arranged vertically or horizontally and need not be highlighted aside from being included in the table. [Disclosures may be arranged in an order different from that in model forms G-10(A), (B), and (C); may be arranged vertically or horizontally; need not be highlighted aside from being included in the table; and are not required to be in any particular type size]. Various features from different model forms may be combined; for example, the shorter grace period disclosure in model form G-10(B) may be used in any disclosure. While proper use of the model forms will be deemed in compliance with the regulation, card issuers are permitted to use headings and disclosures other than those in the forms (with an exception relating to the use of "grace period") if they are clear and concise and are substantially similar to the headings and disclosures contained in model forms. For further discussion of requirements relating to form, see the commentary to § 226.5a(a)(2).

BILLING CODE 6210-11-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG-103882-99]

RIN 1545-AX06

Depletion; Treatment of Delay Rental; Hearing Cancellation

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Cancellation of notice of public hearing on proposed rulemaking.

SUMMARY: This document provides notice of cancellation of a public hearing on proposed regulations which contain proposed amendments conforming regulations relating to delay rental to the requirements of section 263A, relating to capitalization and inclusion in inventory of costs of certain expenses.

DATES: The public hearing originally scheduled for Friday, May 26, 2000, at 10 a.m., is canceled.

FOR FURTHER INFORMATION CONTACT: LaNita Van Dyke of the Regulations

Unit, Assistant Chief Counsel (Corporate), at (202) 622-7180 (not a toll-free number).

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking and notice of public hearing that appeared in the **Federal Register** on February 8, 2000, (65 FR 6090), announced that a public hearing was scheduled for May 26, 2000, at 10 a.m., in room 2615, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. The subject of the public hearing is proposed regulations under section 612 of the Internal Revenue Code. The deadline for outlines of oral comments and requests to speak expired on May 5, 2000.

The notice of proposed rulemaking and notice of public hearing, instructed those interested in testifying at the public hearing to submit a request to speak and an outline of the topics to be addressed. As of May 17, 2000, no one has requested to speak. Therefore, the public hearing scheduled for May, 26, 2000, is canceled.

Cynthia E. Grigsby,

Chief, Regulations Unit, Assistant Chief Counsel (Corporate).

RIN 2060-ZA03

Federal Plan Requirements for Large Municipal Waste Combustors Constructed On or Before September 20, 1994

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to take action on the "Federal Plan Requirements for Large Municipal Waste Combustors Constructed on or Before September 20, 1994." This action would clarify the final compliance date, update the list of which large municipal waste combustor (MWC) units are affected by the Federal plan, and add a site-specific compliance schedule for one MWC unit.

On November 12, 1998, the EPA adopted the Federal plan to implement emission guidelines for large MWC units located in areas that are not covered by an approved and currently

effective State plan. In a direct final rule published elsewhere in the issue of the **Federal Register**, we are updating the MWC Federal plan to identify large MWC units for which a State plan was approved and became effective since adoption of the Federal plan (November 12, 1998). We are also amending part 62 of title 40 of the Code of Federal Regulations (CFR) to reflect receipt of negative declarations from States that have certified that there are no large MWC units located in the State that would be subject to the Federal plan. We are also amending a table in the Federal plan to clarify that in all cases for all large MWC units, final compliance with all emission limits including the mercury and dioxins/furans emission limits must be achieved by December 19, 2000. Finally, we are amending a table to add a site-specific compliance schedule for one additional MWC unit. Today's action does not change the emission limits for large MWC units nor does it change the level of health protection that the Federal plan provides.

In the "Rules and Regulations" section of the **Federal Register**, we are amending part 62 as a direct final rule without prior proposal because we view the amendments as noncontroversial and anticipate no adverse comment. The amendments to the regulatory text appear in the direct final rule and are not published as proposed amendments with this proposed rule. We have explained our reasons for the amendments in the preamble to the direct final rule. If we receive no adverse comment on this rule, we will not take further action on this proposed rule. If we receive adverse comment, we

will withdraw the direct final rule and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule. We will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

DATES: Written comments must be received by June 23, 2000.

ADDRESSES: Comments should be submitted (in duplicate, if possible) to: Air and Radiation Docket and Information Center (MC-6102), Attn: Docket No. A-97-45/Category V-D, U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania, NW, Washington, DC 20460. Comments may also be submitted electronically. For information on submitting comments electronically, see the **SUPPLEMENTARY INFORMATION** section. Address all comments and data for this proposal, whether on paper or in electronic form, such as through e-mail or disk, to Docket No. A-97-45/Category V-D.

FOR FURTHER INFORMATION CONTACT: For procedural and implementation information regarding these amendments, contact Ms. Julie Andresen McClintock at (919) 541-5339, Program Implementation and Review Group, Information Transfer and Program Integration Division (MD-12), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711. For State-specific information regarding the implementation of this Federal plan, contact the appropriate Regional Office (table 1) as shown in **SUPPLEMENTARY INFORMATION**.

SUPPLEMENTARY INFORMATION: This document concerns amendments to

"Federal Plan Requirements for Large Municipal Waste Combustors Constructed on or Before September 20, 1994." For further information, the detailed rationale, the administrative requirements, and the specific amendments being made, please see the information provided in the direct final action that is located in the "Rules and Regulations" section of this **Federal Register** publication. We are publishing the amendments as a direct final rule because we view the amendments as noncontroversial and anticipate no adverse comment.

Electronic Submittal of Comments.

Comments may be submitted electronically. Send electronic submittals to: "A-and-R-Docket@epamail.epa.gov". Submit electronic comments in American Standard Code for Information Interchange (ASCII) format. Avoid the use of special characters and any form of encryption. Electronic comments on these proposed emission guidelines may be filed online at any Federal Depository Library. Comments and data will also be accepted on disks in WordPerfect® version 5.1 or 6.1 file format (or ASCII file format). Address all comments and data for this action, whether on paper or in electronic form, such as through e-mail or disk, to Docket No. A-97-45/Category V-D.

Regional Office Contacts. For information regarding the implementation of the MWC Federal plan, contact the appropriate EPA Regional Office as shown in table 1. This table has been updated since it was published on November 12, 1998 (63 FR 63193).

Administrative Requirements

Regulatory Flexibility Act/Small Business Regulatory Enforcement Fairness Act of 1996

The Regulatory Flexibility Act (RFA) of 1980 (5 U.S.C. 601, *et seq.*), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), generally requires EPA to prepare a regulatory flexibility analysis of any rule subject to notice and comment under the Administrative Procedure Act or any other statute unless EPA certifies that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impacts of this action on small entities, small entity is defined as: (1) A small business in this industry with a gross annual revenue less than \$6 million; (2) a small governmental jurisdiction that is a government of a city, county, town school district or special district or a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise that is independently owned and operated and not dominant in its field.

This action is not subject to the requirements of the RFA as modified by SBREFA because it only makes minor technical amendments to some of the rule's requirements and it does not impose any additional requirements. During the 1995 MWC emission

guidelines rulemaking, EPA estimated that few, if any, small entities would be affected by the promulgated guidelines and standards, and therefore, a regulatory flexibility analysis was not required (see 60 FR 65413). Therefore, pursuant to the provisions of 5 U.S.C. 605(b), EPA certifies that the amendments to the MWC Federal plan will not have a significant impact on a substantial number of small entities and a regulatory flexibility analysis is not required.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 20

[CC Docket No. 94-102; DA 00-1091]

Wireless E911; New Implementation Deadline for TTY Access to Digital Wireless Systems for 911 Calls

AGENCY: Federal Communications Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission, in this document, seeks comment on a proposed revised deadline for compliance with the Commission's rule requiring transmitting of text telephone (TTY) 911 calls on digital wireless systems. The Commission also seeks information on other aspects of the various TTY/digital wireless systems compatibility solutions, including consumer impacts, technical issues, etc. The temporary waivers of the rule previously granted by the Commission will remain in place pending the Commission's establishment of an implementation schedule based on the information received in response to this document. The action is needed to establish a strong, inclusive record on TTY issues that the Commission may use in making well-informed decisions in this critical enhanced 911 (E911) proceeding.

DATES: Submit comments on or before June 19, 2000; submit reply comments on or before July 19, 2000.

ADDRESSES: Send comments and reply comments to the Office of the Secretary, Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Patrick Forster, 202-418-1310.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Public Notice in CC Docket No. 94-102, DA 00-1091, released May 17, 2000. The complete text of the Public Notice is available on the Commission's Internet site, at www.fcc.gov. It is also available
