AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On June 9, 2011 the U.S. Environmental Protection Agency (EPA) announced the release of the External Review Draft of “Guidance for Applying Quantitative Data to Develop Data-Derived Extrapolation Factors for Interspecies and Intraspecies Extrapolation” for public comment (76 FR 33752-33753). With this notice EPA is announcing an extension of the comment period to August 9, 2011. EPA is releasing this draft document solely for the purpose of seeking public comment prior to external peer review. The document will undergo independent peer review during an expert peer review meeting, which will be convened, organized and conducted by an EPA contractor in 2011. The date of the external peer review meeting will be announced in a subsequent **Federal Register** notice. All comments received by the docket closing date, August 9, 2011, will be shared with the external peer review panel for their consideration. Comments received after the close of the comment period may be considered by EPA when it finalizes the document. This document has not been formally disseminated by EPA. This draft guidance does not represent and should not be construed to represent EPA policy viewpoint, or determination. Members of the public may obtain the draft interim guidance from <http://www.regulations.gov>; or www.epa.gov/raf/DDEF/index.htm or from Dr. Michael Broder via the contact information below.

3. Provide copies of any technical information and/or data that you used to support your views.
4. Provide specific examples to illustrate your concerns and suggest alternatives.

5. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

SUPPLEMENTARY INFORMATION: This draft guidance document outlines approaches for developing factors for inter- and intra-species extrapolation based on data describing toxicokinetic and/or toxicodynamic properties of particular agent(s). It was developed to provide guidance for EPA staff in evaluating such data and/or information and to provide information to the regulated community and other interested parties about deriving and implementing extrapolation factors derived from data instead of defaults.

Filed 07/10/2011 through 07/15/2011 Pursuant to 40 CFR 1506.9

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.
