SUPPLEMENTARY INFORMATION:

I. Background

This rule streamlines the export control regulations between the United States and the United Kingdom under specified circumstances.

The U.S. Government controls exports of defense articles, technical data, and defense services. The governing law is the Arms Export Control Act (AECA) (22 U.S.C. 2778 *et seq.*) and implementing regulations in the International Traffic in Arms Regulations (ITAR) (22 CFR 120–130).

Under the ITAR, the Department of State manages an export licensing system in which numerous government approvals are often necessary for companies to hold discussions about potential projects, pursue joint activities, ship hardware, or transfer know-how to one another, and even sometimes to transfer engineers and other company employees from one country to another. This process can be challenging and time consuming for U.S. exporters and for foreign firms in their supply chains.

The U.S. concluded the Treaty with the United Kingdom to enable their militaries, security authorities, and their approved industries to exchange defense articles, technical information, and defense services more freely. The Treaty establishes exemptions for certain exports and transfers that meet the Treaty requirements. Other exports and transfers remain governed by AECA and the ITAR.

The Treaty and implementing arrangements with the United Kingdom may be accessed at <http://www.state.gov/t/pm/rls/othr/misc/92770.htm>.

The implementing legislation is in Title I of Pub. L. 111–266, the Security Cooperation Act of 2010.

The Senate conditions upon ratification are at <http://www.govtrack.us/congress/billtext.xpd?bill=s111-3847>.

The U.S. Department of State regulations implementing the Treaty with the United Kingdom are at 22 CFR part 120.

The Treaty establishes an Approved Community that includes members of the U.S. Government and the government of the United Kingdom, including various Ministries, Departments, and Agencies, as well as selected defense and security companies and facilities. Exports of most U.S. defense articles, including technical data and defense services, are generally permitted to enter and to move freely within this community, without the need for government approvals and licenses—provided that all persons comply with all other statutory and regulatory requirements concerning the import of defense articles and defense services or the possession or transfer of defense articles,—when in support of—

- Combined U.S.-U.K. military or counterterrorism operations;
- U.S.-U.K. cooperative security and defense research, development, production, and support programs;
- Mutually agreed to security and defense projects that are for U.K. Government use only; and
- U.S. Government end use.

Under the Treaty, instead of a U.S. exporter preparing and requesting U.S. Department of State approval of an export license or Technical Assistance Agreement for a project, which would normally take around 45–60 days, the exporter will verify information on the U.S. Department of State Web site that—

- The U.K. industry member is a member of the Approved Community;
- The project is on the list of approved projects and items are for U.S. Government end use; and
- The defense article is not on the Exempted Technology List.

If the members of the United States Community and United Kingdom Community, the project, and the technology are verified, then the U.S. exporter and the U.K. member may proceed without export licenses.

In addition to checking the above three lists, an exporter using the Treaty also must comply with any applicable related ITAR requirements and 22 CFR 126.17(g) and other applicable U.S. laws and regulations. These requirements include marking and recordkeeping to ensure that export-controlled items are recognized as such and handled accordingly. Similarly, DFARS 225.7902 implements requirements that relate to exports that, for example, a prospective contractor may make under a DoD solicitation or that a contractor may make in performance of a DoD contract.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD does not expect this interim rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule does not impose burdens on small businesses. Small businesses that are exporters will benefit from being able to use the streamlined treaty process to make exports that are associated with responding to DoD solicitations and performance of DoD contracts. However, an initial regulatory flexibility analysis has been performed and is summarized as follows:

The objective of the rule is to streamline the export control regulations between the United States and the United Kingdom under specified circumstances. The legal basis for the rule is the Security Cooperation Act of 2010 (Pub. L. 111–266), enacted October 8, 2010.

Although this rule adds a representation that requires the approval of the Office of Management and Budget under 44 U.S.C. chapter 35, the net effect will be to significantly streamline and reduce paperwork requirements between the United States and the United Kingdom under the process set forth in the Treaty as implemented by the ITAR by no longer requiring individual export control licenses in certain circumstances within the Approved Community. In short, one representation per offeror will streamline the current process.

The great majority of industry members that comprise the Approved Community are not small businesses due to the specialized knowledge of export control regulations and the cost involved in compliance. Therefore, the

cost is anticipated to be less than five million dollars, but will accrue a net cost savings by streamlining the requirements of industry compared to the present export control licensing procedures.

The rule does not duplicate, overlap, or conflict with any other Federal rules.

This rule implements the Treaty and statute and DoD is not aware of any alternative methods of achieving the objectives of the rule. Furthermore, the net impact of the rule is expected to be beneficial to small businesses.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2012–D034), in correspondence.

IV. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35). OMB has cleared this information collection requirement under OMB Control Number 0704–0488, titled: Defense Trade Cooperation Treaty with the United Kingdom (DFARS 252.225).

The annual reporting burden is estimated as follows:

Respondents: 110.

Responses per respondent: 1.

Total annual responses: 110.

Preparation hours per response: 0.1.

Total response burden hours: 11.

This rule will result in a significantly streamlined process and reduced paperwork requirements overall between the United States and the United Kingdom under the process set forth in the Treaty as implemented by the ITAR by no longer requiring individual export licenses within the Approved Community. In short, one representation per offeror will streamline the current process.

B. Request for Comments Regarding Paperwork Burden

Written comments and recommendations on the information collection, including suggestions for reducing this burden, should be sent not later than July 23, 2012 to Ms. Jasmeet Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503, or email Jasmeet_K_Seehra@omb.eop.gov, with a

copy to the Defense Acquisition Regulations System, Attn: (Ms. Amy Williams), OUSD(AT&L)DPAP/DARS, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060. Comments can be received from 30 to 60 days after the date of this notice, but comments to OMB will be most useful if received by OMB within 30 days after the date of this notice.

Public comments are particularly invited on: whether this collection of information is necessary for the proper performance of functions of the DFARS, and will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

To request more information on this information collection or to obtain a copy of the information collection and associated collection instruments, please write to the Defense Acquisition Regulations System, Attn: (Ms. Amy Williams), OUSD(AT&L)DPAP/DARS, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060, or email dfars@osd.mil. Include DFARS Case 2012-D034 in the subject line of the message. Requesters may obtain a copy of the supporting statement from the point of contact specified herein. Please cite OMB Control Number 0704-0488, Defense Trade Cooperation Treaty with the United Kingdom (DFARS 252.225), in all correspondence.

VI. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the Department of State final rule implementing the Treaty between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland Concerning Defense Trade Cooperation (Treaty Doc. 110-7) and making other updates to the ITAR became effective on April 13, 2012 (77 FR 23538 dated April 19, 2012). Expedited implementation of an interim DFARS rule is based upon the DFARS' integral ties with the ITAR and the National Industrial Security Program Operating Manual (NISPOM). The

NISPOM and DFARS regulations operationalize the ITAR guidance for members of the United States Community and United Kingdom Community in the Approved Community responsible for most of the operational functions.

However, pursuant to 41 U.S.C. 1707 and FAR 1.501-3(b), DoD will consider public comments received in response to this interim rule in the formation of the final rule.

RIN 0750-AH68

Defense Federal Acquisition Regulation Supplement: Report on Waiver of Prohibition on Acquisition From Communist Chinese Military Companies (DFARS Case 2012-D023)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement the requirement in the National Defense Authorization Act for Fiscal Year 2012 to report to the congressional defense committees before issuing a waiver of the prohibition on acquisition of United States Munitions List items from Communist Chinese military companies.

DATES: *Effective Date:* May 22, 2012.

FOR FURTHER INFORMATION CONTACT: Ms. Amy G. Williams, Defense Acquisition Regulations System, OUSD (AT&L) DPAP/DARS, Room 3B855, 3060 Defense Pentagon, Washington, DC 20301-3060. Telephone 571-372-6106; facsimile 571-372-6094.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1243 of the National Defense Authorization Act for Fiscal Year 2012 (Pub. L. 112-81) requires a report to the congressional defense committees not less than 15 days before issuing a waiver to the requirements of section 1211 of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163), implemented at DFARS 225.770, Prohibition on acquisition of United States Munitions List items from Communist Chinese military companies. The prior requirement was for a report within 30 days after the date of the waiver. The final rule also adds the requirement to send a copy of the report to Defense Procurement and Acquisition Policy.

II. Publication of This Final Rule for Public Comment Is Not Required by Statute

“Publication of proposed regulations,” 41 U.S.C. 1707, is the statute which applies to the publication of the Federal Acquisition Regulation. Paragraph (a)(1) of the statute requires that a procurement policy, regulation, procedure, or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure, or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment because the rule merely alters the timing of the report to the congressional defense committees when issuing a waiver of the prohibition on acquisition of United States Munitions List items from Communist Chinese military companies, adds the requirement to send a copy of the report to Defense Procurement and Acquisition Policy, and further specifies the required contents of the report. These requirements affect only the internal operating procedures of the Government.
