SUPPLEMENTARY INFORMATION:

Title: Performance Reporting System, Management Evaluation.

OMB Number: 0584-0010.

Expiration Date: 4/30/2013.

Type of Request: Revision of a currently approved collection.

Abstract: The purpose of the Performance Reporting System (PRS) is to ensure that each State agency and project area is operating the Supplemental Nutrition Assistance Program (SNAP) in accordance with the requirements of the Food and Nutrition Act of 2008 (the Act) (7 U.S.C. 2011, *et seq.*), as amended and corresponding program regulations. Under Section 11 of the Act (7 U.S.C. 2020), State agencies must maintain necessary records to ascertain that SNAP is operating in compliance with the Act and regulations and must make these records available to the Food and Nutrition Service (FNS) for inspection and audit.

Management Evaluation (ME) Review Schedules—Unless the State receives approval for an alternative Management Evaluation review schedule, each State agency is required, under 7 CFR part 275, to submit one review schedule every one, two or three years, depending on the project area make-up of the State.

Data Analysis—Under 7 CFR part 275, each State must establish a system for analysis and evaluation of all data available to the State. Data analysis and evaluation is an ongoing process that facilitates the development of effective and prompt corrective action.

Corrective Action Plans—Under 7 CFR part 275, State agencies must prepare a corrective action plan (CAP) addressing identified deficiencies. The State agencies must develop a system for monitoring and evaluating corrective

action and submit CAP updates, as necessary.

Affected Public: SNAP State and local agencies.

Estimated Number of Respondents: 53 State agencies.

Estimated Number of Responses per Respondent: (1) State agencies will submit one review schedule and one ME review plan per year, and will conduct and document ME reviews for an average total of 28.98 responses each.

Estimated Total Annual Responses: 1,536 (53 review schedules + 53 review plan development + 1,430 project areas)

Estimated Time per Response: FNS estimates that it takes 4 hours to prepare a review schedule, and that each of the 53 State agencies will submit one review schedule per year resulting in a total burden of 212 hours. FNS estimates that it takes on average approximately 80 hours to develop a comprehensive State review plan, resulting in a total of 4,240 hours.

FNS estimates that it takes an average of 340 hours to conduct a review. It is estimated that ME reviews are conducted for one-half of the total number of project areas (1,430).

Therefore, FNS estimates that it takes approximately 486,200 hours annually for State agencies to conduct their reviews.

FNS also estimates that the time necessary for record keeping, that is, the time necessary to find and file a record in the conduct of an ME review is .1169 hours per State agency. Therefore, the total amount of time for recordkeeping is 180 hours.

Estimated Total Annual Reporting and Recordkeeping Burden: 490,832 hours

SUMMARY: On July 10, 2012, the Department of Commerce ("Department") published the preliminary results of, and intent to rescind in part, the 2010-2011 administrative review of the antidumping duty order on tapered roller bearings ("TRBs") from the People's Republic of China ("PRC").¹ Further, the Department released the results of its post-preliminary analysis on December 7, 2012.² The period of review ("POR") is June 1, 2010, through May 31, 2011.

This review covers five respondents: (1) Changshan Peer Bearing Company, Ltd. ("CPZ/SKF"); (2) Xiang Yang Automobile Bearing Co., Ltd. ("ZXY"); (3) Tianshui Hailin Import and Export Corporation ("Tianshui Hailin"); (4) Haining Automann Parts Co., Ltd. ("Haining Automann"); and (5) Zhejiang Zhaofeng Mechanical and Electronic Co., Ltd. ("Zhejiang Zhaofeng").

We invited interested parties to comment on our *Preliminary Results* and post-preliminary analysis. Based on our analysis of the comments received, we made certain changes to our margin calculations for CPZ/SKF. The final weighted-average dumping margins for this review are listed in the "Final Results of Review" section below.

DATES: *Effective Date:* January 16, 2013.

Background

On July 10, 2012, the Department published its *Preliminary Results* in the antidumping duty administrative review of TRBs from the PRC. The Timken Company ("Petitioner") submitted post-preliminary surrogate value data on July 30, 2012. Petitioner and CPZ/SKF each submitted case briefs on August 9, 2012, and rebuttal briefs on August 14, 2012. On October 17, 2012, the Department extended the deadline for the final results by 60 days, until January 6, 2013. On October 31, 2012, as explained in the memorandum from the Assistant Secretary for Import Administration, the Department exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from October 29, through October 30, 2012, which extended the deadline for the final results by two additional days, until January 8, 2013.³ On December 7, 2012, the Department released its post-preliminary analysis, and Petitioner and CPZ/SKF submitted post-preliminary comments on December 14, 2012, and post-preliminary rebuttal comments on December 18, 2012.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs as well as the post-preliminary comments and rebuttal comments filed by parties in this review are addressed in the Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration, "Issues and Decision Memorandum for the Final Results of the Antidumping Duty Administrative Review of Tapered Roller Bearings and Parts Thereof, Finished and Unfinished from the People's Republic of China," dated concurrently with this notice ("Issues and Decision Memorandum"), which is hereby adopted by this notice. A list of the issues that parties raised and to which we responded in the Issues and Decision Memorandum follows as an appendix to this notice. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in

the public memorandum, which is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Services System ("IA ACCESS"). Access to IA ACCESS is available to registered users at <http://iaaccess.trade.gov>, and is available to all parties in the Central Records Unit room 7046 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Period of Review

The POR is June 1, 2010, through May 31, 2011.

Scope of the Order

Imports covered by the order are shipments of tapered roller bearings and parts thereof, finished and unfinished, from the PRC; flange, take up cartridge, and hanger units incorporating tapered roller bearings; and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, whether or not for automotive use. These products are currently classifiable under Harmonized Tariff Schedule of the United States ("HTSUS") item numbers 8482.20.00, 8482.91.00.50, 8482.99.15, 8482.99.45, 8483.20.40, 8483.20.80, 8483.30.80, 8483.90.20, 8483.90.30, 8483.90.80, 8708.99.80.15⁴ and 8708.99.80.80.⁵ Although the HTSUS item numbers are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

PRC-Wide Entity

The Department initiated a review of Haining Automann and Zhejiang Zhaofeng but neither company provided a separate rate application. Because these companies do not already have separate rates, they remain part of the PRC-wide entity in this review. Accordingly, the PRC-wide entity is under review for these final results.

In NME proceedings, 'rates' may consist of a single dumping margin
