

in the field, and provide information to DHS in order to understand capabilities and perceptions related to CBRN defense. ECBC will also collect data through similar web-based methodologies on commercial hardware systems that detect chemical, biological, and radiological which have applicability in assessing human exposure to pathogens, toxic chemical and radiological agents. The surveillance of hardware systems has been tasked by The Joint Program Executive Office for Chemical and Biological Defense and the Defense Threat Reduction Agency.

Affected Public: Volunteer and professional fire stations, paramedics services, law enforcement officers.

Annual Burden Hours: 291.

Number of Respondents: 700.

Responses per Respondent: 1.

Average Burden per Response: 25 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Continuation of CBRN Surveillance Hardware Systems

ECBC will collect data on CBRN surveillance systems in support of the Joint Program Executive Office for Chemical and Biological Defense and the Defense Threat Reduction Agency. In parallel ECBC will also collect data on responder preparedness related to CBRN defense in support of the Department of Homeland Security. The methodologies used in both web-based surveys have been replicated from highly successful CBRN market surveys conducted since 2003. In those previous efforts commercially available products were evaluated through an online collection tool. In executing these efforts a survey questionnaire is distributed online via <http://www.SurveyMonkey.com> to the targeted community. ECBC maintains an up-to-date contact list from past participation and also works in collaboration with trade groups or professional organizations who share interest and help facilitate distribution of the message. ECBC's subject matter experts have created a small set of targeted questions to be answered by the participants. The information collected will be analyzed using a weighted system and the resulting data is consolidated into a report for the directing organization. In the case of the surveillance hardware surveys the final product was a helpful consolidated guide of all commercially available detection systems which provide a way to compare surveillance and detection

equipment and make informed purchasing decisions. Due to rapid changes and inventions in technology, the market survey must be updated to ensure accuracy in the information obtained. Previous published editions include the 2003 Market Research Survey, 2005 Market Research Survey, Market Survey: Biological Detection 2007 Edition, and the 2011 Chemical, Biological, Radiological Technology Survey.

First Responder Survey

ECBC will collect data on responder preparedness related to CBRN defense in support of the Department of Homeland Security. The methodologies shall be a web-based survey distributed online via <http://www.SurveyMonkey.com> to the targeted community. ECBC maintains an up-to-date contact list from past participation and also works in collaboration with trade groups or professional organizations who share interest and help facilitate distribution of the message. ECBC's subject matter experts have created a small set of targeted questions to be answered by the participants. The information collected will be analyzed using a weighted system and the resulting data is consolidated into a report for the directing organization.

Contact First Responders

ECBC will work with DHS, professional trade groups, and the Responder Knowledge Base (<https://www.rkb.us/>) to identify a representative group of first responders to survey. ECBC will provide to these first responders a detailed letter describing the effort and the process for providing information. The survey questionnaire shall be developed using <http://www.SurveyMonkey.com>, the world's leading provider of web-based survey solutions, and shall be hosted at the Web site <http://www.ResponderHorizonScan.com>. This will allow ECBC to electronically capture information for a large number of first responders and quickly organize and download the information for analysis.

Collect and Analyze Data

The data collected by ECBC will be analyzed by a team of subject matter experts in detection and decision analysis. Decision analysis experts will create a system by which to subjectively analyze the information gathered from the first responder community. This system will allow flexibility in the analysis increasing the power of the survey. The field analysis will provide

to DHS valuable insight into the tools being used in the field.

Create and Deliver Final Report and/or Publication

ECBC will provide to DHS a final report consisting of the full and final raw data collected via www.ResponderHorizonScan.com and a written report detailing the analysis performed and the results of the analysis. In addition, ECBC will provide to DHS a presentation for conferences and meetings that highlights the survey results.

Dated: January 23, 2012.

Patricia L. Toppings,

*OSD Federal Register Liaison Officer,
Department of Defense.*

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulation System

[Docket No. DARS-2011-0069-0002]

Submission for OMB Review; Comment Request

ACTION: Notice.

The Defense Acquisition Regulations System has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Consideration will be given to all comments received by March 8, 2012.

Title, Associated Forms and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Part 243, Contract Modifications, and the related clause at DFARS 252.243-7002; OMB Control Number 0704-0397.

Type of Request: Extension.

Number of Respondents: 440.

Responses per Respondent: 1.

Annual Responses: 440.

Average Burden per Response: Approximately 4.8 hours.

Annual Burden Hours: 2,120.

Needs and Uses: The information collection required by the clause at DFARS 252.243-7002, Requests for Equitable Adjustment, implements 10 U.S.C. 2410(a). DoD contracting officers and auditors use this information to evaluate contractor requests for equitable adjustment to contract terms.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: On occasion.

OMB Desk Officer: Ms. Jasmeet Sehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, docket number, and title for the **Federal Register** document. The general policy for comments and other public submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information provided. To confirm receipt of your comment(s), please check <http://www.regulations.gov> approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

DoD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings at WHS/ESD/Information Management Division, 4800 Mark Center Drive, 2nd Floor, East Tower, Suite 02G09, Alexandria, VA 22350–3100.

Ynette R. Shelkin,

Editor, Defense Acquisition Regulations System.

[FR Doc. 2012–2811 Filed 2–6–12; 8:45 am]

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket No. DARS–2011–0078–0002]

Submission for OMB Review; Comment Request

ACTION: Notice.

The Defense Acquisition Regulations System has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Consideration will be given to all comments received by March 9, 2012.

Title, Associated Forms and OMB Number: Defense Federal Acquisition

Regulation Supplement (DFARS) Part 204, Administrative Matters: U.S.-International Atomic Energy Agency Additional Protocol; and related clause at DFARS 252.204–7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol; OMB Control Number 0704–0454.

Type of Request: Extension.

Number of Respondents: 300.

Responses per Respondent: 1.

Annual Responses: 300.

Average Burden per Response: 1 hour.

Annual Burden Hours: 300.

Frequency: On occasion.

Needs and Uses: This requirement is necessary to provide for protection of information or activities with national security significance. As such, this information collection requires contractors to comply with the notification process at DFARS clause 252.204–7010, Requirement for Contractor to Notify DoD if the Contractor's Activities are Subject to Reporting Under the U.S.-International Atomic Energy Agency Additional Protocol.

Under the U.S.-International Atomic Energy Agency (IAEA) Additional Protocol, the United States is required to declare a wide range of public and private nuclear-related activities to the IAEA and potentially provide access to IAEA inspectors for verification purposes. The U.S.-IAEA Additional Protocol permits the United States unilaterally to declare exclusions from inspection requirements for activities with direct national security significance.

The clause at 252.204–7010 is included in contracts for research and development or major defense acquisition programs involving fissionable materials (e.g., uranium, plutonium, neptunium, thorium, americium); other radiological source materials; or technologies directly related to nuclear power production, including nuclear or radiological waste materials.

The clause requires a contractor to provide written notification to the applicable DoD program manager and a copy of the notification to the contracting officer, if the contractor is required to report its activities under the U.S.-IAEA Additional Protocol. Upon such notification, DoD will determine if access may be granted to IAEA inspectors, or if a national security exclusion should be applied.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or maintain benefits.

OMB Desk Officer: Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, docket number, and title for the **Federal Register** document. The general policy for comments and other public submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information provided. To confirm receipt of your comment(s), please check <http://www.regulations.gov> approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

DoD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings at WHS/ESD/Information Management Division, 4800 Mark Center Drive, 2nd Floor, East Tower, Suite 02G09, Alexandria, VA 22350–3100.
