Petition for Exemption

Docket No.: FAA-2002-13734.

Petitioner: Republic Airline, Inc.

Section of 14 CFR Affected: 14 CFR 93.123.

Description of Relief Sought: Republic Airline Inc. (Republic) requests an exemption from the slot limit for Ronald Reagan Washington National Airport (DCA) set forth in § 93.123(a). This exemption would permit Republic to continue to operate one slot, which it currently uses for nonstop service between DCA and Milwaukee County's General Mitchell International Airport.

On June 14, 2010, the FAA renewed Republic's exemption until September

30, 2012. That grant of exemption stated the FAA would publish any future extension petitions to permit the public to comment on the continued public interest served by this exemption. Specifically, the FAA requests comments focus on three issues: (1) Whether the FAA should extend the exemption to Republic for a period of at least 2 years; (2) whether the FAA should permit the exemption to retire according to its terms; and (3) whether the FAA should permit the exemption to retire and grant a similar exemption to another carrier following a lottery among interested new entrant or limited incumbent carriers as defined in 14 CFR 93.123. The FAA will review all comments received and may publish an additional notice.

FOR FURTHER INFORMATION CONTACT: Mr. Bryan Price, Federal Motor Carrier Safety Administration, 1000 Liberty Avenue, Suite 1300, Pittsburgh, PA 15222, Telephone 412-395-4816, E-Mail: bryan.price@dot.gov.

SUPPLEMENTARY INFORMATION: On March 27, 2012, (77 FR 18298), FMCSA published a notice announcing changes to the Agency's Safety Measurement System and a preview period for law enforcement and motor carriers to assess the impact of the changes. We provided a 60-day period for initial comments from motor carriers and law enforcement that would have expired on May 29, 2012. However, based on feedback received by the Agency, this comment period is being extended 60 days to July 30, 2012. Once the preview is complete an additional opportunity will be provided for public review and comment.

The improvements proposed include: (1) Changes to the SMS methodology that find higher risk carriers while addressing industry biases; (2) Better applications of SMS results for Agency interventions by more effectively identifying safety sensitive carriers (i.e., passenger carriers transporting people and carriers hauling hazardous materials (HM)), so that such firms can be selected for CSA interventions at more stringent levels; and, (3) More specific fact-based displays of SMS results on the SMS Web site.

This extension will provide motor carriers with additional time to preview how the improvements impact their individual safety data in SMS. Motor carriers will have additional time to take action related to their data in the SMS, and additional time to provide comments to the Agency. The data preview may be found at <http://csa.fmcsa.dot.gov/>. During the extended preview period, FMCSA will be conducting additional outreach to further explain the proposed changes to SMS and to encourage additional motor carriers to view the preview site and to provide comments. As part of these outreach efforts, FMCSA plans to offer a series of webinars related to the proposed SMS improvements and the data preview site. Details regarding the date and time of these webinars, and how to register, will be posted to the above Web site.

During the data preview period, the Agency requests comments on the impacts of the changes.

Issued: May 17, 2012.

Associate Administrator for Enforcement.
