Information Collection Requirement

Title: Security Programs for Foreign Air Carriers.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0005.

Form(s): N/A.

Affected Public: Foreign air carriers.

Abstract: OMB Control Number 1652–0005; Security Programs for Foreign Air Carriers, 49 CFR part 1546. TSA uses the information collected to determine compliance with 49 CFR part 1546 and to ensure passenger safety by monitoring foreign air carrier security procedures. Foreign air carriers must carry out security measures to provide for the safety of persons and property traveling on flights provided by the foreign air carrier against acts of criminal violence and air piracy, and the introduction of explosives, incendiaries, or weapons aboard an aircraft. This information collection is mandatory for foreign air carriers and must be submitted prior to entry into the United States. The information TSA collects includes identifying information on foreign air carriers' flight crews and passengers. Specifically, TSA requires foreign air carriers to submit

the following information: (1) A master crew list of all flight and cabin crew members flying to and from the United States; (2) the flight crew list on a flight-by-flight basis; (3) passenger information on a flight-by-flight basis; and (4) total amount of cargo screened. Foreign air carriers are required to provide this information via electronic means. Foreign air carriers with limited electronic systems may need to modify their current systems or develop a new computer system in order to submit the requested information. Additionally, foreign air carriers must maintain these records, as well as training records for crew members and individuals performing security-related functions, and make them available to TSA for inspection upon request. TSA will continue to collect information to determine foreign air carrier compliance with other requirements of 49 CFR part 1546.
