

personal, contact, and institutional information of all individuals on their research team. Applicants proceed to provide summary information about their proposed project, to include project title, duration, funding, timeline, and other details including the data asset(s) they are requesting and any proposed linkages to data not listed in the SAP data catalog, including non-federal data sources. Applicants then proceed to enter detailed information regarding their proposed project, including a project abstract, research question(s), literature review, project scope, research methodology, project products, and anticipated output. Applicants must demonstrate a need for confidential data, outlining why their research question cannot be answered using publicly available information.

Submission for Review: Upon submission of their application, applicants will receive a notification that their application has been received and is under review by the data-owning agency or agencies (in the event where data assets are requested from multiple agencies). At this point, applicants will also be notified that application approval does not alone grant access to confidential data, and that, if approved, applicants must comply with the data-owning agency's security requirements outside of the SAP Portal, which may include a background check.

In accordance with the Evidence Act and the direction of the ICSP, agencies will approve or reject an application within a prompt timeframe. In some cases, agencies may determine that additional clarity, information, or modification is needed and request the applicant to "revise and resubmit" their application. This is also in accordance with the SAP Policy, which was submitted to the public for comment in January 2022 (87 FR 2459, 2022). The policy is currently under review and has not yet been finalized.

Appeals Process: In the event of an adverse determination, the applicant will be provided justification through the SAP Portal detailing the determination. The SAP Portal will provide the applicant with the option to submit an appeal for reconsideration by the data-owning agency or agencies. Applicants can also file an appeal for non-compliance with SAP Policy.

Access to Restricted Use Data: In the event of a positive determination, the applicant will be notified that their proposal has been accepted. The positive or final adverse determination concludes the SAP Portal process. In the instance of a positive determination, the data-owning agency (or agencies) will contact the applicant to provide

instructions on the agency's security requirements that must be completed to gain access to the confidential data. The completion and submission of the agency's security requirements will take place outside of the SAP Portal and is therefore not included in the estimate of burden below.

Estimate of Burden: The amount of time to complete an application within the SAP Portal may vary depending on the number of individuals on the application, the topic of the proposal, and the data assets being requested. To request access to NCSES data assets, it is estimated that the average time to complete and submit an application within the SAP Portal is 60 minutes. This estimate includes the time needed to complete the SAP Portal application fields (applicant information and research proposal); it does not include an estimate of the time needed to develop a research proposal itself. The research proposal is developed outside of the SAP Portal and may be written for multiple audiences (e.g., to solicit funding); therefore, it is not included in the estimate of burden for the SAP Portal.

The expected number of applications submitted to NCSES in a given year may vary. Overall, NCSES estimates it may receive 20 application submissions within the SAP Portal per year. NCSES estimates that the total burden for the SAP Portal over the course of the three-year OMB clearance will be about 60 hours and, as a result, an average annual burden of 20 hours.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2022–0090 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* 10 CFR part 11, “Criteria and Procedures for Determining Eligibility for Access to or Control Over Special Nuclear Material.”

2. *OMB approval number:* 3150–0062.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* On occasion.

6. *Who will be required or asked to respond:* Employees (including applicants for employment), contractors, and consultant for NRC licensees and contractors whose activities involves access to, or control over, special nuclear material at either fixed sites or for transportation activities.

7. *The estimated number of annual responses:* 558.

8. *The estimated number of annual respondents:* 2.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 139.4 (139 reporting and 0.4 recordkeeping).

10. *Abstract:* The NRC's regulations in part 11 of title 10 of the Code of Federal Regulations (10 CFR), establish requirements for access to special nuclear material, and the criteria and procedures for resolving questions concerning the eligibility of individuals to receive special nuclear material access authorization. The specific part 11 requirements covered under this OMB clearance include requests for exemptions to part 11 requirements, amendments to security plans that require incumbents to have material access authorizations, access authorization cancellations. In addition, licensees must keep records of the names and access authorization numbers of certain individuals assigned to shipments of special nuclear material. The information required by 10 CFR part 11 is needed to establish control over and maintain records of who is properly authorized to safeguard and have access to special nuclear material. Not knowing this information could cause harm to the public and national security.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.

2. Is the estimate of the burden of the information collection accurate? Please explain your answer.

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: August 29, 2022.

For the Nuclear Regulatory Commission.
